**BROWN’S**

"Building And Laying Since 1909"

**LET’S GET THE FACTS STRAIGHT!**

I am a Candidate for the City Commission of Carthage.

Because I believe... that my family’s future is intertwined with that of Carthage, Texas.

The City Government of Carthage is a million dollar a year operation.

I am a candidate because I believe our City Government should be operated on a Business-like Basis, and this can best be done by experienced Business men.

In operation of my own business I am conversant daily with the problems similar to those of the city such as employment, labor, payrolls, city code, insurance, taxes and ordinances.

I have established my house and my business here due to my faith in the future of Carthage. I wish to further that faith in the future, as a responsible leader, like administration that will benefit every resident residing in our city.

ALL THE NEWS CAN'T BE GOOD NEWS
But Faith Is Always Comforting

Some people think that all the news can't be good news. They forget that faith is always comforting. When things seem to go wrong, when difficulties arise, faith is there to give us strength and courage. It helps us to see the good in every situation, even when things don't seem to be working out as planned. Faith is the foundation of our beliefs, and it is the key to finding peace and happiness in life.

SCHOOLS DOING GOOD JOB

Schools are doing a good job. The teachers are working hard to provide a quality education for our children. The students are working hard to learn and grow. The parents are supporting their children and helping them to succeed. Schools are the foundation of our society, and they are doing an excellent job of preparing our children for the future.

WHAT HAS HAPPENED?

What has happened? It has happened that the world is changing. New technologies are emerging that are changing the way we live and work. The economy is fluctuating, and we are all trying to adapt to the changes. But through it all, we must remember that we are a community, and we must work together to make our world a better place.

HOMES IN HISTORY

Homes in history are fascinating. They tell us about the way people lived in the past. They show us how technology and society have changed over time. Homes in history are a valuable resource for historians, and they provide us with a glimpse into the past.

HOW COME?

How come? It's a question that we all ask ourselves. Why do things happen the way they do? What is the reason behind the actions of others? The answer is often complex and multifaceted. But by asking questions and seeking answers, we can gain a better understanding of the world around us.
