People...
Outdoors in Texoma

BY VERN SANDFORD

Fishing the past few weeks has been kind to anglers in all sections of Texoma. Several times this month, bass have been caught in the 22-25-pound range, a new record for the lake. Several anglers have also reported catching white bass and striped bass in the 20-25-pound range. The fishing is best around the baitfish schools and in areas with deep water. The best times to fish are early in the morning and late in the afternoon. The water level is still low, so be sure to check for depth before fishing.

One of the best places to fish is the dam area, where the water is warmer and the fish are more active. The fishing is also good in the coves and along the shoreline. The lake is equipped with several boat ramps, making it easy to access the water. The lake is stocked with fish, so you can expect to catch bass, white bass, and striped bass.

Come in handy

By doing your part, we can make Texoma a better place to live. Here are some ideas on how you can help:

1. Reduce, reuse, and recycle
2. Use water-efficient appliances
3. Plant native plants
4. Use public transportation
5. Support local businesses

Two Named on All-State Choir

Debra Bland and George Corcoran were named to the All-State Choir. Debra, a sophomore, and George, a senior, have both been members of the choir for three years. They are both members of the All-State Choir and will represent Texoma in the state competition.

ONE OF THE CHORES

Robert Crawford drew on Green Build's long list of tasks and chose to paint a birdhouse. He used the leftover paint from the previous projects. The birdhouse will be placed in the courtyard, where it will be enjoyed by everyone. The team is grateful for the opportunity to work on this project, and they look forward to completing it.

The weather is expected to be sunny and warm, with a high of 80 degrees. The forecast is calling for a 10% chance of rain, but it is expected to clear up by late afternoon. The wind is expected to be calm, with a speed of 5-10 miles per hour. The humidity is expected to be moderate, with a reading of 50-70%.
