Things Chevrolet has developed since the last time you bought to give you more for your money:

Double-walled construction: This feature of Chevrolet cars and the Pontiac pickup truck has two advantages: Insulation and sound-deadening material is embedded in the body, and the doors are insulated, providing you comfort in the body, the body, the inner ears, and comfort in the body. A new material is used for the sound-deadening material, providing you comfort in the body.

Chevrolet truck engines—four, six, V8.
