YOU MAY INSURE YOUR CREDIT CARDS AGAINST LOSS OR THEFT!

If you own credit cards you can easily lose $500 or over. Over 1,000 credit cards are lost every day. However, credit card insurance costs $500 in each case, and total may be $20,000 annually.

If you lose your credit cards you may find that the company responsible for the cards held for you responsible for all unlawful charges until you notify them of your loss. New regulations require you to pay the charges if you notify your bank of the loss more than 48 hours after the theft.

Now, you can avoid this everyday risk! Protect your credit cards from loss or theft by insuring them. Just $1.00 per year gives you complete coverage.

GIVE US A CALL TODAY! WE GLADLY TELL YOU MORE ABOUT THIS NEW PLAN BY HARRY FORD.

Terry Ends

South Cali... A light-hearted for the 1970's rock and pop movement in the late 1960's. Eddy Dean is the Motley Crue frontman, who was known for his fast-paced and aggressive musical style. The band's debut album, "Shout at the Devil," was released in 1981 and became a commercial success, reaching the top 10 on the Billboard chart. "Shout at the Devil" was followed by several more albums, including "Dr. Feelgood" and "Pound of Skulls." Eddy Dean was known for his energetic stage performances and his signature long hair. He was also responsible for the band's saucy and rebellious image, which helped to establish them as a major force in the hard rock scene. The band continues to tour and perform to this day, with Eddy Dean still at the helm. Their music continues to evoke the spirit of the 1970's rock and roll era, with its raw energy and rebellious attitude. The band's influence can be heard in the works of countless other bands and artists who have followed in their footsteps.
