The Panola Lumber Watchman
Grades Are "Unpopular";
System Only "Human"

The problem presented by grades is essentially a philosophical one, and attempts to
solve it must inevitably lead to an examination of the whole system of education. Grades
are often criticized as an anachronism which should be abolished, and yet, if one
were to understand the value of grades, he would realize that certain grades are
essential for a system of education to function properly. 

Grades are used to measure the attainment of educational objectives, and without
them, it would be impossible to assess the effectiveness of the educational process.
Without grades, it would be impossible to compare the performance of different
students, and it would be impossible to determine the progress of individual
students. 

Grades are also used to motivate students to work hard, and without them, it
would be impossible to ensure that students are making the most of their
opportunities. 

Grades are, in fact, an essential part of the educational system, and they should
not be abolished. They are a necessary evil, and we hope that the next generation
of teachers will find a way to make them less "unpopular".

Panola Wins
In NFL Meet

BOONTON - Paula College
football team scored an
important victory last week,
beating the University of
Texas 29-14. The game was
played in front of a large
crowd at the college's
new stadium. The victory
was a great morale booster
for the team, and it
confirmed their place in
the top echelon of college
football.

New Annual Staff Leaders

WINNIPEG, CANADA - The 1967-68
PONY annual was recently presented
to its readers at the annual
convention in Winnipeg. The
editor, Mr. J. J. Johnson, had
written the convention
program, which included the
presentation of the annual. The
annual was well received by the
readers, and it was
considered to be a great success.
