Plan To Attend Every Game This Season
IN PRAYER THERE IS POWER

The reality of our bond to the idea that prayer is a privilege only for childrice and as an exclusive gift to some of the greatest acts and benefits of life.

Prayer produces power, power that will change one's entire outlook on life, that will make one happier and healthful in body and mind. The fact and numerous persons, to whom God is a constant companion, including businesses and professional people, use prayer to help solve daily problems is testimony enough of its value.

Now then, how may we learn to pray in such a way as to derive these benefits? It is simple enough. By attending church and taking one of the main services offered by the Church—sermon of a pastor, from the pulpit, or some of the church fellowship a companion may be found who can and will teach us how to pray, how to enrich our lives.

THESE BUSINESS FIRMS URGE YOU TO ATTEND CHURCH EACH SUNDAY

LIVING IN HOPE

Background Scripture: Isaiah 4:2-5,22-23.

Memory Selection: Behold, I create new heavens and a new earth; and the former things shall not be remembered or come into mind.

APPLICATION: To truly believe, his faith must be translated into acts of love. This is true both for himself and others. Living in hope, one must be everlastingly fruitful and effective, for all is not given to us for our earthly use but for our work in the world. The fruit of the earth and the fruit of good deeds.

THE GROUP IS A PROCTOR AND A STRESS OF THEIR STUDIES. As the group moves on, it is evident that the group is not simply a collection of individuals, but a community of persons who are bound together by a common purpose. The group is a living organism, and its members are interdependent on each other for survival.

The government is composed of separate parts, each with its own function and responsibility. In the same way, the group is composed of individuals with different roles and responsibilities, but all working together for the common good.

The group is a living organism, and its members are interdependent on each other for survival.
