Life's Certainties
Death And Taxes And Forest Fires

When we read the newspaper we are often presented with an editorial that says things like: "Death and taxes are certainties." This is true. But what about forest fires? Are they certainties too? We think they are not. There are many ways to prevent forest fires, and by doing so, we can help ensure that they do not become a certainty.

Automobile
Bond Sales At $79,754

"Bond Sales" indicates that a certain amount of bonds were sold. The exact number is not specified, but it is close to $79,754. This figure could be significant in the context of economic transactions, investment, or government funding.

TODAY'S PATRIOT

There are many today who believe that love of country is in conflict with the concept of freedom. This view is shared by many, but it is not the case. Love of country is not in conflict with freedom. It is, in fact, a natural and necessary component of a healthy society. The true patriot is one who loves his country and works to make it better. He is one who respects the laws and principles that guide it. He is one who stands up for what is right and fights for the common good. He is not one who uses his love of country as an excuse to oppress others or to ignore the needs of the disadvantaged. He is one who uses his love of country as a guide to action and a source of inspiration. He is one who knows that the true meaning of patriotism is to serve and protect the nation, not to use it as an excuse for personal gain or to justify violence and injustice. He is one who knows that the true meaning of patriotism is to love and serve the nation, not to use it as a weapon in the hands of those who seek to destroy it.
# This Week’s Sunday School Lesson

**Love is...**

**Background Scripture:** Colossians 3:14

**Lesson Title:** 

**Objective:**
- Understand the concept of love as described in the Bible.
- Apply the lesson to daily life.

**Preparation:**
- Prepare visual aids or activities related to the theme of love.
- Gather materials for a craft activity or game that relates to the lesson.

**Materials Needed:**
- Tracing paper
- Baking soda
- Vegetable oil
- Food coloring

**Devotional:**

**Scripture**

Colossians 3:14

**Observation:**

1. **Give Me A Recipe For Love.**

   Ingredients:
   - Tracing paper
   - Baking soda
   - Vegetable oil
   - Food coloring

   Preparation:
   - Place a piece of tracing paper over a cookie sheet.
   - Sprinkle baking soda onto the tracing paper, making sure to cover the entire sheet.
   - Using a toothpick, carefully add drops of vegetable oil and food coloring to specific areas on the baking soda.

2. **The Chemical Reaction**

   When the oil and food coloring come into contact with the baking soda, a reaction occurs, creating a deep red color. This visual representation illustrates the concept of love being created and shared.

   Relevance:
   - Love is a powerful force that can bring positive changes to our lives and those around us.

3. **The Formula For Love**

   The formula for love is not just a simple reaction but a complex mixture of emotions, actions, and intentions. Just like the ingredients in our recipe, each part plays a crucial role in creating something beautiful.

   Additional Thought:
   - Love is not just a noun but an active verb. It requires effort, care, and commitment.

4. **Simple Ingredients For Every Kitchen**

   - Baking soda: A symbol of simplicity and purity.
   - Vegetable oil: A medium for creativity and expression.
   - Food coloring: Adding a touch of whimsy and joy.

   Conclusion:

   **Activity:**

   - The students can create their own recipe for love using the materials provided.
   - After the activity, discuss the importance of love in our daily lives.

**Teacher’s Reflection:**

- Reflect on the activity and how it relates to the lesson.
- Consider how the students felt about the activity and the lesson.

**Assignment:**

- Write a short essay about a time when they experienced love in their daily lives.
