**School Program Impressive**

**Addict Lays It On Line To Students**

BY RAY PALMER

Carthage, Texas—High school students of Carthage High School have beamed their shining eyes as they listened to the campus last week. These eyes, shining with gratitude and admiration, greeted their former principal, Mr. John S. Peavey, who visited the school to speak on the subject of addiction, and how it affects students and society.

Mr. Peavey, in his passionate speech, emphasized the importance of recognizing addiction in its early stages and taking proactive measures to prevent it. He shared personal stories of those who have fallen victim to addiction and how it has led to devastating consequences.

The students were deeply moved by Mr. Peavey's message and were visibly motivated to avoid the pitfalls of addiction. The school administration has plans to incorporate Mr. Peavey's teachings into their curriculum, ensuring that students are equipped with the knowledge and tools to make informed decisions and stay healthy.

Mr. Peavey's visit was a profound reminder of the importance of education and the role schools play in shaping the future generations. The students left the assembly with a renewed sense of purpose and commitment to leading healthy, productive lives.
