**Poultry Output Can Be Increased**

Beware of the dangers of overproduction in poultry farming. Proper management and control are key to maintaining a healthy and productive flock. Excessive output can lead to overcrowding, stress, and disease, which can negatively impact the overall health and productivity of the birds.

**Commencement Held For School**

The annual commencement ceremony was held yesterday to celebrate the achievements of the graduating class. Members of the administration, faculty, and students gathered to commemorate this important milestone. The keynote address was given by Dr. Sarah Brown, who spoke passionately about the future opportunities and challenges facing the graduating students.
