Commission Sets Revenue-Sharing Budget

In Three Persons

Pickens County Cadets' Prom

When do we do when the pump runs dry?

The Tecoh Highway Department, contiguous and complementary to the development of a navigable highway from Sumter in the Northern Pickens County, has just announced the appointment of the South Carolina Highway Commission, effective immediately.

The Panola County Zoning Board has recommended the construction of a Loop Zoning project for the area.

The trio died when a small car hit by a semi-truck in the middle of the night.

The Board has recommended a revenue-sharing budget for the upcoming fiscal year.

The Panola County Cadets' Prom was held on Saturday night, with a large gathering of students and faculty in attendance.

The pump runs dry when the reservoirs are depleted, causing a lack of water for domestic and agricultural purposes.

The Sisters were killed in a head-on collision on the highway.

The pump runs dry when the water levels fall below the intake level, preventing the water from being pulled into the reservoir.

The PZ Board has recommended the construction of a Loop Zoning project for the area.

The pump runs dry when the water level falls below the pump's intake level, causing a lack of water for domestic and agricultural purposes.

The pump runs dry when the water level falls below the pump's intake level, preventing the water from being pulled into the reservoir.

The pump runs dry when the water level falls below the pump's intake level, causing a lack of water for domestic and agricultural purposes.

The pump runs dry when the water level falls below the pump's intake level, preventing the water from being pulled into the reservoir.

Wholesale Price Index Rises 0.8 Per Cent

The Wholesale Price Index rose 0.8 per cent in November. The rise is the largest in six months, according to the Federal Reserve Board. The index, which measures the price of wholesale goods and services, now stands at 94.8, up from 94.0 in October. The increase is attributed to higher costs for energy and metals, as well as increased production.
