Koonce Choirs To Present Patriotic Programs Oct. 22

The Koonce Choirs will present a patriotic program on October 22. The concert will feature a variety of patriotic songs, including classics and contemporary selections.

In addition to the choir's performance, local musicians and instrumentalists will also take part in the event, adding to the overall musical experience. The concert will be held in the school's auditorium, and admission is free to the public.

CISD Draws Tax Suit

City officials have filed a tax suit against the County Tax Assessor-Collector's Office. The suit claims that the office has failed to properly assess properties in the city, resulting in a loss of revenue for the city.

The suit, filed in County Court, seeks damages and a declaratory judgment regarding the proper assessment of properties. The city is seeking a court order to require the assessor-collector to reassess properties and provide accurate values.

In Tax Exemption Matter

City voters will have the final say on a tax exemption matter later this year. The City Council has placed a tax exemption for a new hospital on the November ballot.

The exemption, if approved, would allow the hospital to avoid paying property taxes on its new facility. The hospital argues that the exemption is necessary to attract investors and ensure the hospital's financial viability.

City Officials Encourage 'Right Turn, On Red'

City officials have reminded drivers to be cautious at red lights. The City Council recently approved a policy change that allows right turns on red lights, provided they are not obstructed.

City Manager Bob Carroll said the change was made to improve traffic flow and encourage drivers to turn right instead of stopping. However, he stressed that drivers should always yield to pedestrians and follow the usual rules of the road.

Father Time to Backslide

Father Time is planning to take a break from his usual schedule. However, he called it a "break" rather than a "休假".

Father Time explained that he needed a little rest before returning to his usual routine. He said he was planning to take a few days off and then resume his normal schedule.

The Backslide will consist of a series of events designed to help Father Time relax and rejuvenate. The events will include a day at the beach, a spa day, and some time spent with family and friends.

Father Time said he was looking forward to the Backslide, which he hoped would help him recharge and return to his usual routine with renewed energy.

It's all part of Father Time's strategy to ensure he stays healthy and happy. He said he was committed to taking care of himself and not overworking himself.

The Backslide will beFather Time's first official break in several years. He said he was excited to see how it would go and hoped it would be a success.

If You're Interested In Conserving A Natural Resource, Heat Your Home With Gas.

When you use gas heat you consume a great deal of this valuable resource. It is not difficult to understand why we are concerned with conservation, free gas would mean a tremendous saving in the generation of electric energy. The savings are enormous, but the benefits are indescribable.

 slog Down Stretches Mileage

Slowing Down Stretches Mileage

There are a few words which I use often and which are
always correctly pronounced. I use them frequently
because they are short and because they are the only
words I can say without hesitation. They are:

"The best thing about being old is that I can
say that I am old."

"The worst thing about being young is that
I am young."

"The happiest thing about being in a car is that
I can drive."

"The saddest thing about being in a car is that
I can't drive."

"The most exciting thing about being in a car is
that I can drive."

"The least exciting thing about being in a car is
that I can drive."

"The most important thing about being in a car is
that I can drive."

"The least important thing about being in a car is
that I can drive."

"The happiest day of my life was the day I bought
my first car."

"The saddest day of my life was the day my car
didn't work."
