**Court Drops Two Charges Of Marijuana**
**Land Grab**

American power in the technology race can only be maintained if we are willing to stand up and assert our right to and need for land. The situation is urgent and must not be delayed.

**Deteriorating Defenses**

The existing defense system will not be adequate to deal with the present threat. The current efforts to improve the system are inadequate to meet the requirements.

**Proper Concern**

The current situation is serious and requires immediate action. We must take measures to ensure the security of our country.

**Easter-Day**

The annual Easter Day event is an important tradition. We must ensure that it is celebrated appropriately.

**Sensing the News**

The news is constantly changing and requires constant monitoring. We must stay informed to ensure that we are aware of the latest developments.

**Run To Work**

The crisis of employment is severe and requires immediate attention. We must take steps to address the issue.

**Out Of The Past**

We must learn from the past to ensure that we do not repeat the mistakes. The past is a guide to the future.

**More Energy**

Energy is a critical resource and requires careful management. We must ensure that we have a sustainable energy supply.
