Nuclear Beast

U.S.paginators are working overtime to keep up with the volume of news coming from the nuclear front. Last week, the President announced that the United States would escalate its nuclear arms buildup to a new level, and this week, new reports emerged of secret nuclear tests conducted by the Soviet Union. The situation is volatile and requires immediate action.

The President's Oath

In his recent address to the nation, President X vowed to uphold the Constitution and defend the country against any threat. However, the recent developments in the nuclear arms race raise serious concerns about the ability of the government to safeguard the country.

ATTENTION

LIVESTOCK FEEDERS

If you plan to feed livestock this winter and want to protect yourself against the annual winter price increases on livestock feed, you should consider a Forward Purchasing Contract on your feed needs. This program was formally known as a “bolting” until Sept. 1972. In short, you “contract” your feed needs with us for the coming winter & purchase your feed as you always have in the past by picking up your feed as you need it. You do not have to pay for your feed contract in advance. This contract will start Nov. 1, 1974, & close Jan. 31, 1975. As the grain market prices increase your contract price will be “frozen”.

For further details make reservations to attend our Second Annual Customer Feed “bolting” to be held at Joe’s Cafe, Thursday, Dec. 15, 1974. Call 63-6705 for reservations.
