City, County Swap Park Land For Airport Property

Pamela M. Goolsby Assistant Editor

Pamela General Anderson has sold 3 acres of land to the Wood County Memorial Hospital for $40,000. The hospital is planning to build a new office building on the property.

Hospital Lab Is Equipped For Computerized Analysis

The Wood County Memorial Hospital has installed a new computerized laboratory analysis system. The system will provide more accurate and faster results than the previous manual method.

SSI Review Is Scheduled

The Social Security Administration is currently reviewing the eligibility of all recipients of Supplemental Security Income (SSI) in Texas. The review is expected to take several months.

Wages Up But Inflation's Higher

The cost of living in Wood County has increased due to higher wages for workers. However, the rate of inflation is also rising, making the increase in wages less effective.

Yule Parade Nears

The annual Yule Parade is scheduled for December 3. Local businesses and organizations are preparing floats and activities for the parade.

Patriotic Assembly Held At TJHS

A patriotic assembly was held at the Tarleton Junior High School. The students sang songs and presented a play about the history of the United States.

UF Volunteers Pushing To Complete Beckville Drive

UF volunteers are working to complete the Beckville Drive project. The project is a major improvement for the Beckville community and is expected to be completed soon.

Miss Allison Rites Held

The Miss Allison pageant was held recently. Allie Johnson was crowned as the winner. She will represent the school at the next pageant.

Inflation: It Must Be Stopped

Between the Lines

Inflation has become a major concern for many people. The rising cost of living has made it difficult for individuals and families to manage their finances. The effects of inflation can be seen in various areas of life, from housing to transportation and groceries.

The increase in prices has impacted businesses and consumers alike. For businesses, inflation can lead to decreased profitability and increased costs. Consumers, on the other hand, may feel the pinch as their purchasing power diminishes.

There are several factors that contribute to inflation. One of the primary causes is an increase in demand relative to supply. When there is more demand for goods and services than there are available, prices tend to rise.

Another factor is cost-push inflation, which occurs when the costs of production increase. This can be due to higher wages, increased input costs, or other factors that raise the cost of doing business.

In response to inflation, governments and central banks often implement monetary and fiscal policies to control inflationary pressures. These measures may include increasing interest rates, reducing the money supply, or implementing austerity measures.

While inflation can be challenging, there are strategies that can help manage its effects. For individuals, developing a budget and prioritizing spending can help. For businesses, focusing on cost management and efficiency is crucial.

In conclusion, inflation is a complex issue that affects all sectors of the economy. By understanding the factors that contribute to inflation and implementing effective policies, we can work towards stabilizing prices and stabilizing the economy.

*Have you had enough or do I have to use two wet needles?*
