**United Might Close Gasoline Plant**

The United Gasoline Plant in town is considering closing its doors due to declining sales and increased competition from other fuel providers. The decision to shutter the plant has raised concerns among residents, who rely on the facility for employment and economic stability.

**Insurance Question Pops Again**

The local insurance market has been under scrutiny again, with questions about the availability and affordability of coverage. Officials are urging residents to shop around and ensure they have adequate insurance to meet their needs.

**Bethany Fire Claims Panola County Man**

A man from Bethany was killed in a house fire that occurred early in the morning. The cause of the fire is under investigation, and the community is mourning the loss of the man who was a long-time resident.

**City Leases Garage To HUDCO**

The city has leased a garage to HUDCO, a housing development corporation, for use as a community center. This move is seen as a step towards increasing community engagement and providing additional services to residents.

**Commissioners Delay Decision**

The county commissioners have delayed making a decision on a proposed development project until more information can be gathered. The project is a large-scale commercial development that has sparked debate among locals.

**Lobbying Is Now On Sale**

A new service has been launched that allows individuals to purchase lobbying services. The service is seen as a way for individuals to influence policy decisions, but concerns have been raised about the potential for undue influence.

Idle Money
Never Dies...

How does life look to your child?

Your child may be seeing life exactly the way it is.

But she could be getting a completely different view and
never know the difference. That's because she never
looks at life any other way.

You simply can't see good results to printing. Regular pro-

fessional eye examinations are in important aspect of
your child's vision. And the sooner you find out what your
child sees in life - the sooner she should go before the
opticus to school.

For example, a need

for eyeglasses, depends on 20/30 to

filling the data's pre-

scription to the eye

specifications. And you

can choose from a wide variety of good-looking frames

that are as durable as they are on-trend. The cost is reasonable, too.

We can help your child see life at its best.

Society, in 1950 we've reached in life.
