Local School Board Holds Emergency Meeting

Delays Final Action On New Building To Advertise For Bids

By Jim Davis

A special meeting of the Panola County School Board was held on Thursday night, January 14th, to discuss the delay in advertising for bids for a new elementary school. The board members were concerned about the delay and its potential impact on the construction schedule.

School Superintendent Lonnie Efford, who has been instrumental in the planning of the new school, explained that the delay was due to the need for additional funding. He stated that the school board had already approved the project, but the State Legislature had not yet appropriated the necessary funds.

The meeting was held in the Panola County School District's Administration Building in Carthage. The board members discussed the need for immediate action to ensure that the new school is completed on schedule.

The world we live in is not a peaceful one, and the threat of war hangs over us like a dark cloud. This is especially true in Britain, where the conflict in the Middle East has raised tensions to new heights. The British government has been working hard to prevent a military conflict, but the risk remains. We must remain vigilant and prepared for any eventuality.
