DPS Request For CB Radios Delayed

A request from the Highway Patrol for CB radios for its patrol cars was held up Monday last in a meeting of the Panola County Commissioners Court. The request was held up because the Panola County Radio Authority, which is responsible for providing radio service to the county, had not been able to fulfill the request. The Commissioners Court was not happy about the delay and asked the radio authority to expedite the request. The radio authority agreed to do so and the request should be filled soon.

Six Hurt In Wreck

A two-vehicle collision at 11 a.m. Monday last on FM 105 just east of Midway injured six people. The accident occurred when a pickup truck, driven by a man from Midway, collided with a sedan, driven by a woman from Enterprise. The man driving the pickup truck was taken to the hospital with minor injuries. The woman driving the sedan was also taken to the hospital with moderate injuries. The other four people involved in the accident were treated at the scene and released.

Park Site Examined

A park site was examined by members of the Panola County Recreation Committee on Monday last in preparation for the construction of a new park in the area. The site was located on a hill overlooking the town and was chosen because of its natural beauty and the view it offers.

City Sets Election For April Fools Day

The City Council set the date for the upcoming election for April First, the traditional date for April Fools Day. The election will be held on the first Tuesday in April and will be a non-partisan election. The council made the decision to hold the election on this date to create some humor and lightness in the otherwise serious business of politics.

Shriners Plan Early Blood Drive

The Shriners have announced that they will be holding a blood drive on February 11th. The drive will be held from 10 a.m. to 3 p.m. at the Shriners' headquarters on Main Street. The Shriners have been holding blood drives for many years and have always been successful in collecting blood.

Mideast Peace

In order to govern Mideast peace properly, the U.S. must start looking to where we stand today, from the perspective of the world, not just the Middle East. The U.S. must begin to view the situation in the Middle East as a whole, not just as a conflict between Israel and the Palestinians. The U.S. must also work to build trust between the parties, which is essential for peace to be achieved. The U.S. must take a lead role in bringing the parties together, and work to find a solution that is acceptable to all. The U.S. must also work to create a stable, safe environment for the parties to work together, and to ensure that the solution is sustainable in the long term.

Mrs. Yosenick Elected Humane Society Prexy

Mrs. Yosenick is the new president of the Humane Society of Montgomery County. Mrs. Yosenick is an active member of the society and has been involved in various committees. She has been instrumental in organizing several events and fundraising activities to support the society's mission.

We can help improve your outlook on life.

How you feel depends a lot on how you look at things.

Let's help you put things into perspective. Stop in for a professional eye examination by a Doctor of Optometry associated with TSO. If you need visual correction, we can supply the exact lenses to make that correction. And the frame to suit your personality. All at a reasonable cost.

Regular eye examinations are just as important as regular visits to your dentist. Eyes change with age and these changes affect your vision. So don't put it off.

An eye examination is relatively non-invasive. But your vision is priceless.

Use your BankAmericard* or Master Charge* TSO credit also available at no extra charge. At TSO, we care how you look at life.

Minimum Standards Suggested for All Ambulance Attendants

LETTERS

Mrs. E. R. Atwood, P.O. Box 910, Carthage, Texas

Dear Mrs. Atwood:

I am writing to express my concern regarding the minimum standards suggested for all ambulance attendants. These standards are crucial for ensuring the safety and well-being of patients during medical emergencies. As a member of the health community, I believe it is important to highlight the necessity of implementing these standards.

The proposed standards include qualifications for both medical and non-medical personnel. Medical attendants should have at least an associate's degree in nursing or a related field, while non-medical attendants should have a high school diploma or equivalent. These requirements are necessary to provide quality care and ensure the safety of patients during transport.

Furthermore, the standards recommend that all attendants undergo regular training and continuing education to stay updated with the latest medical practices. This is essential to maintain the highest level of patient care.

I urge you to support these minimum standards, as they will not only improve the quality of emergency medical services but also protect the well-being of the community. Let us work together to ensure that our ambulances are equipped with qualified personnel who are committed to providing the best possible care.

Sincerely,

[Your Name]
