**School Expansion Plan Probed**

A three-phase expansion program in the Panola County School District (PCSD) was discussed Tuesday night at the Board of Trustees meeting. The discussion was held to determine whether or not the proposed plan would meet the needs of the community and educational goals of the district.

The proposed plan includes the construction of new buildings at the high school and elementary schools. The high school would include additional classrooms, administrative offices, and a new gymnasium. The elementary schools would receive new classrooms and additional space for educational programs.

The Board of Trustees is scheduled to vote on the expansion plan at their next meeting, which is set for February 28th. The decision will be based on input from the community and analysis of the educational needs of the district.
