Sportsmen's Association Urged

By TP&W Commissioner Stone

The sportsmen's problems in Panola County, Texas, are far from being solved. It would be a delusion to think that such problems would be solved by legislation that is to be enacted in the near future. The sportsmen must be prepared to face the problems that they will have to solve in order to protect the rights of all who have a right to use the public lands for hunting and fishing.

Tatum Residents Discuss Widening Highway 149

By Gail R. LeBlanc

Tatum residents and highway officials are planning for the possible expansion of Highway 149, which passes through the town. A meeting was held last week to discuss the potential widening of the road to accommodate increased traffic.

The need for widening is due to the growing population and increased economic activity in the area. The current two-lane road is insufficient to handle the volume of traffic, leading to congestion and safety concerns.

The proposed widening would involve the addition of a third lane in each direction. The project is estimated to cost approximately $10 million, with funding provided by a combination of state and federal sources.

The meeting was well attended, with representatives from the town, property owners, and highway officials in attendance. There was a mix of support and concerns expressed by the attendees.

Supporters argued that the widening is necessary to improve safety and reduce congestion. They also pointed out that the project would likely spur economic development in the area.

Opponents, however, expressed concerns about the potential impact on local businesses and the environment. They noted that the area is known for its agriculture and tourism, and any construction could disrupt these industries.

The town council is expected to make a decision on the project in the coming months. If approved, the construction would begin shortly thereafter.
