Lake Board Considers Murvaul Sewer System
Hires Engineering Firm To Make $9,950 Study

The first step toward providing a sewer system for residents of Lake Murvaul was taken last week when the Travis County Lake Board voted to hire an engineering firm to study the feasibility of the sewer system. The vote was 3-0, with Chairman John Young and Vice-Chairman P.K.ることならし in favor of the proposal.

The proposal had been discussed by the board for several months, and it was decided that a comprehensive study was needed to determine the feasibility and cost of the sewer system. The engineering firm will be responsible for conducting the study and providing recommendations to the board.

News Briefs

McGuire To Run
For Law Office

Brett R. McGuire, a former Travis County assistant district attorney, has announced his candidacy for the 33rd District Attorney seat. McGuire is a graduate of the University of Texas Law School and has practiced law in Travis County for 10 years.

Panola County
Solid Waste
Grant Delayed

Panola County was granted a federal grant for its solid waste management program, but the grant has been delayed due to budget cuts. The grant was intended to help the county implement a solid waste management plan.

City Plans Meeting

A public meeting was held last night to discuss plans for the expansion of the city of Panola. The meeting was attended by residents and city officials, and it was decided that the expansion would be delayed due to budget constraints.

Taxi Service

A new taxi service was announced last week, with rates starting at $5 for a one-mile ride. The service is expected to start next month and will operate seven days a week.

Lake Board Considers Murvaul Sewer System

The Lake Board has decided to hire an engineering firm to study the feasibility of a sewer system for residents of Lake Murvaul. The study will cost $9,950 and will be funded by the board.

An Illness To Be Cured

Armored Truck Popular Topic

By Jon Stone

The armored truck is a popular topic today. People are fascinated by the idea of a vehicle that can withstand direct hits from a gun and remain intact. The armored truck is used by many countries around the world for protection against terrorist attacks and other threats. It is equipped with bulletproof glass and thick walls that make it nearly impossible to penetrate. The truck is also fitted with a sophisticated communication system that allows the driver to stay in contact with the authorities in case of an emergency. Despite its cost, the armored truck is considered a necessity in many parts of the world. However, there are concerns about the impact of these vehicles on the environment and their potential to fuel the arms race.

Op's

Three ways to travel by Long Distance:

Taxi Service Will Be Missed

A control was up all day at what we thought was a normal rate. It seems at the moment that the cab companies are being squeezed as their business is falling away. The cabbies are getting tired of the rate and are thinking of ways to better organize. If they don't come up with something soon, they'll be in serious trouble. What do you think about this situation?
