Buffalo Herd
‘Roams’ Here

by Jim Brown

Ishmael Williams, local rancher, who owns a herd of buffalo (five in number) on his farm near the Panola County line, says his herd is the first known herd in Texas. The herd, he says, was not affected by the recent drought because they can subsist on brush that the rest of the cattle could not.

The buffalo are large, black, and roam the range in groups of five to ten. They are not considered a threat to other animals because they prefer to eat grasses and weeds over meat or fish.

By the end of the month, the buffalo will be ready for sale, according to Williams. He hopes to sell them for $200 each, which will provide him with enough money to buy another herd of buffalo.

The buffalo, known as the "Panola County Buffalo," are a rare breed in Texas and are considered a valuable addition to the state's wildlife resources. They are often used as a symbol of the ruggedness and independence of Texas cowboys.

Budget Watching: A Fun Thing

Budget watching is not only to reduce financial scrutiny as a necessary evil, but it can also be a fun activity. The key is to find ways to make it interesting and enjoyable. Here are a few tips to help you make budget watching fun:

1. Set clear, achievable goals: Break down your budget into smaller, more manageable parts. Set specific goals for each category and track your progress towards achieving them. This will help you stay motivated and focused.

2. Use visual aids: Create charts and graphs to help you visualize your spending patterns. This will help you see where your money is going and identify areas where you can cut back.

3. Make it a family activity: Involve your spouse or children in the budget-making process. This will not only help you stay on track, but it will also make the process more enjoyable.

4. Use apps and technology: There are many budgeting apps available that can help you track your spending and stay on track. These apps can also provide you with valuable insights into your spending habits.

5. Reward yourself: Set up a system of rewards for meeting your budget goals. This could be as simple as treating yourself to a favorite meal or buying a new item you’ve been wanting.

By following these tips, you can make budget watching a fun and rewarding experience. Remember, the goal is to save money, not to be a slave to it. Enjoy the journey towards financial freedom!
