Your company has no retirement plan, and you know Social Security won't be enough.

Shelby-Panola Federal Savings & Loan's new tax-sheltered retirement plan may be the answer.

Open an Individual Retirement Account today, and during your retirement years, you'll be able to do things, go places.

This plan is available to any taxpayer who has no active participation in any qualified retirement plan during the taxable year.

You can contribute up to $3,000 annually or 10% of your earned income for the taxable year, whichever is less. You can deduct the contributions, and you won't even have to itemize your deductions.

As the principal grows, your retirement nest egg will be larger. In 10 years, the nest egg may be sufficiently large to allow you to quit working and live comfortably.

Payments may begin after the age of 59½. You may withdraw your money at any time, or as monthly, quarterly, or annual payments.

You'll find that opening an Individual Retirement Account is as simple as opening a savings account.

For full details about "IRA," send us the coupon, see a Savings Counselor at Shelby-Panola Federal Savings & Loan Association. Upon your request, we can also send a representative to your home or office to discuss this plan.

Your future will be more secure. A single account is just as much as you can count on the sun coming up tomorrow.

What's Good About The U.S.

By Jose Ramirez

The letter from an officer of the American Legion is very timely. It describes many men and women who are served in the U.S. during our wartime. There seems to be a need for them to be aware of the activities of the American Legion. The American Legion is an organization that was formed to assist and support those who served in the military. It provides a network of support and resources for veterans.
