A Clear Signal

The reader's reaction to the comment about the U.S. Department of Housing and Urban Development (HUD) should be noted. HUD is a federal agency responsible for ensuring that the nation's housing is adequate, affordable, and safe for all residents. The department is also responsible for enforcing fair housing laws and providing funding for housing projects under the National Affordable Housing Act. It is important for all residents to understand the role of HUD in shaping the future of housing in the United States.

5. Gas water heaters are generally more cost-effective in the long term, although the initial installation costs may be higher.
