Foul Play Is Indicated

In James Crawford Death

The death of James Crawford, 73, occurred in the early hours of Friday morning, April 4th, 1975. The body of James Crawford was found at his home in the early hours of the morning. He was pronounced dead on arrival at the hospital.

The investigation is still ongoing, and the cause of death has not yet been determined. The police are investigating the matter and have not ruled out foul play.

Weather Forecast

The weather forecast for the next few days indicates a high chance of rain and thunderstorms. Residents are advised to take necessary precautions to stay safe.

MH-MR Plan Okayed by Commissioners Court

The MH-MR Plan has been approved by the Commissioners Court. The plan is designed to improve the quality of life in the MH-MR area.

Building's Booming

The building boom in the area is expected to continue for the next few years. The Commissioners Court has approved the MH-MR Plan, which is expected to bring much-needed improvements to the area.

Water Race Draws Big Vote

The proposed water race has received strong support from the community. Many residents are excited about the prospects of the race.

This Week

A recent resolution was passed in the Panola County Board of Directors meeting, calling for a water race to be held.

For Injured Texas Cattle

The Brucellosis Vaccine Promised

The Brucellosis Vaccine has been promised by the federal government. The vaccine is expected to help control the Brucellosis problem.

Local Man Injured in Car-Wreck

The local man who was injured in the car-wreck is currently receiving treatment at the hospital.

Panola County Cattlemen's learned Friday night how the department of the Texas Agricultural Commissioner would get them the best deal on their cattle. Dr. R. H. Smith, executive director of the Texas Animal Health Commission, was on hand to answer questions.

The Brucellosis Vaccine, which is expected to be available in all livestock farms in the next few months, will be available to all livestock farmers in the Panola County area.

PANOLA COUNTY

This Week

The Panola County Board of Directors met last week to discuss the proposed water race. The board is expected to make a decision on the matter in the next few weeks.

‘Water Race’ Draws Big Vote

The proposed water race has received strong support from the community. Many residents are excited about the prospects of the race.

F. C. Kerfoot, Oakdale, was in the lead with 1,200 votes. Tommy Kilroy was the runner-up with 1,100 votes. Other candidates included Tom. Smith, 800 votes, and John Smith, 700 votes. The race will continue next week.
Fire Ant Invasion

There's no reason owing and living in the South should stop you from having a good time. But there is one thing that can make your life a little more challenging - fire ants. These little critters can be found in various parts of the country, but they are particularly prevalent in the South. They are known for their painful bites and can cause a serious reaction in some people. It's important to be aware of their presence and采取预防措施.

A Parable

Did you ever see a child playing with his toy? He was busy building something, and it looked like a castle. But before you knew it, the wind blew the castle down. The child was upset, but his mother reassured him that although the castle was gone, the experience was a valuable lesson. She explained that sometimes things don't turn out the way we plan, but it's important to keep trying.

Out of the Past

From the files of the Pensacola News

The Pensacola Watchman

The old newspaper office building was once a center of activity. Many news stories were written within its walls. Some of the stories were quite dramatic, while others were more mundane. But all of them contributed to the rich history of the community.

Hard Work Pays Off

The headline "Hard Work Pays Off" is prominently displayed at the top of the page. The article appears to be about the rewards of hard work. The text is not fully visible due to the quality of the image, but it seems to discuss the benefits of perseverance and dedication in business or industry. The page also features several photographs of construction sites and equipment, suggesting that the article might be related to a specific project or industry. The overall theme seems to emphasize the value of hard work and the potential success it can bring.

Save on heating/cooling energy now...and later

With SweePea's Energy Efficient Home.

Sweeping up the competition, SweePea is the choice for energy efficient homes. Our solutions can help you save money on your utility bills and create a comfortable living environment for you and your family.

1. Insulation

Insulation is a crucial component in maintaining a comfortable living environment and reducing energy consumption. By adding insulation, you reduce the amount of energy needed to heat or cool your home, leading to lower utility bills and a more comfortable living space.

2. Exterior Doors

High-quality exterior doors are essential in keeping your home warm in the winter and cool in the summer. Our doors are designed to reduce heat transfer and improve energy efficiency, ensuring that your home remains comfortable throughout the year.

3. Windows

Energy-efficient windows play a significant role in the overall energy efficiency of your home. They help to maintain a comfortable indoor temperature by reducing heat loss and gain, resulting in lower energy costs and increased comfort.

4. Front-End Alignment

A properly aligned front-end not only ensures a smooth ride, but it also contributes to the overall energy efficiency of your vehicle. Proper alignment helps to reduce tire wear, which in turn saves on fuel consumption and lowers your utility bills.

5. Engine Tune-Up

A tune-up is essential in maintaining the efficiency of your vehicle's engine. It helps to optimize performance, reduce emissions, and improve fuel economy, leading to lower utility bills and a more efficient vehicle.

Save $41 to $62 per set of four Goodyear 'POLYSTEEL' RADIALS

Save on heating/cooling energy now...and later

Don't miss out on the opportunity to save on energy-efficient solutions for your home. Contact SweePea today to learn more about our energy-efficient solutions and how they can help you reduce your utility bills and create a more comfortable living environment.

**Federal Study Reveals Many Deficient Bridges**

The federal government has released a study revealing that many bridges across the country are deficient and in need of repair. The study, conducted over the past year, assessed the structural integrity, financing, and maintenance of bridges nationwide. According to the findings, numerous bridges, particularly those in rural areas, face serious safety concerns. The report emphasizes the importance of comprehensive infrastructure funding and the need for immediate action to ensure public safety. The study recommends prioritizing bridges based on their condition and the risk they pose to the public. It also highlights the importance of federal and state partnerships to address the issue effectively. The report suggests that increased investment in bridge maintenance and new construction projects is necessary to address the deficiencies identified. The findings are expected to influence future infrastructure policies and initiatives.
