Run-Off Election Set Saturday

Shorter Ballot Faces Local Democrats

Polly will be gone for at least the next few months if her health fails to improve, but she still has a plan to return to the polls. The former state senator has been active in local politics for years and has been a part of the Democratic party for much of her life. She is known for her consistent support of progressive causes and is widely respected for her dedication to public service.

PANSALA COUNTY

The Week

Cupid stares at the first election of the year and is set to vote on election day. The county is expected to have a high turnout with many candidates running for various positions.

This Week

The Pansala County Sheriff, Jim Bob, is set to announce his candidacy for the position. He has been a member of the sheriff's department for over ten years and is known for his dedication to community service.

The next election is set for March 7, 2024, and candidates are already beginning to prepare for the campaign. A countywide write-in election is also scheduled for the same date.

Hospital Moves To Cut Costs

Pansala County residents are frustrated with recent changes made by the hospital. The administrators have announced plans to reduce the number of services offered in order to save money.

Absentee Balloting Ends Big

Pansala County residents are worried about the upcoming election. The administration has announced plans to end absentee balloting in order to save money.

Woodmen Will Meet

The Woodmen of the World are holding a regular meeting on Monday, June 17, at the Pansala Community Center. The meeting will begin at 7:00 p.m. and is open to all members.

POLL RESULTS FROM 1926

Barbara-Jones, the first female mayor of Pansala, is set to be honored at a special ceremony on September 28. Barbara-Jones has been a long-time advocate for women's rights and has made significant contributions to the community.

VOTE IN SATURDAY'S ELECTION

The Pansala County Election is set for Saturday, November 6. Voters are encouraged to cast their ballots early in order to avoid long lines.

Donkeys Stay On Top
In Local 'Sporting' Event

In the arena of rodeos, donkeys have always been a popular attraction. They are known for their fast and unpredictable behavior, which makes them a favorite in many cowboy activities. The 'Sporting' event, held recently, attracted a large crowd.

The event began with a match between a cowboy and a donkey. The donkey, being much lighter than the man, was able to outmaneuver him with ease. The cowboy, however, did not give up easily, his efforts to catch up with the donkey even more challenging.

The crowd was mesmerized as the donkey, with its short legs and stocky body, darted around the arena. The cowboy, on the other hand, struggled to keep pace, his movements almost comical.

The event was rounded off with a special performance by the donkey, which showed off its agility by standing on its hind legs. This demonstration was a thrill for the crowd, who applauded enthusiastically.

The 'Sporting' event was not only a fun spectacle but also a tribute to the resilience and spirit of these animals, who, despite the challenges, manage to stay on top.

Gentle Bees Best For Beginner

by Larry Anderson

When buying bees it is more important to buy a queen than to buy a colony. When faced with the decision of buying either a queen or a colony the question of where to buy the queen becomes a very important one. The queen is the mother of all the bees in the colony and without her the colony cannot reproduce. There are many different kinds of bees that can be purchased but the queen is the most important. The queen is the one that lays the eggs and produces the larvae. The larvae are fed by the worker bees and develop into adult bees.

The queen bee is the largest bee in the colony and has a distinctive appearance. She is usually black or dark brown in color and has a yellow or orange abdomen. The queen bee is also the only bee that is not stung. The worker bees are smaller and have a black or dark brown abdomen. They are the ones that do all the work in the hive.

When buying a queen it is important to buy one from a reputable source. There are many different types of queen bees that can be bought but the ones that are best for beginners are those that are easy to handle. These bees are usually smaller and less aggressive than other types of bees. They are also easier to keep and maintain.

When buying a queen it is also important to consider the cost. Queens are usually sold for a higher price than worker bees but they are worth the extra money. The queen is the foundation of the colony and without her the colony cannot reproduce. The worker bees are important but they cannot do their job without a queen.

In conclusion, when buying bees it is important to buy a queen. The queen is the mother of all the bees in the colony and without her the colony cannot reproduce. There are many different types of queen bees that can be bought but the ones that are best for beginners are those that are easy to handle. These bees are usually smaller and less aggressive than other types of bees. They are also easier to keep and maintain. When buying a queen it is also important to consider the cost. Queens are usually sold for a higher price than worker bees but they are worth the extra money. The queen is the foundation of the colony and without her the colony cannot reproduce. The worker bees are important but they cannot do their job without a queen.
