Local Economy Boosted
By Population Increases

Two families have moved to Panola from related families in Panola County since the Texas legislature passed the law allowing Panola to annex territory.

According to the Panola County sheriff, the move is expected to increase the population in the area over the next year. Two years ago, the number of people living in the area was less than 100. Today, the population is over 500.

According to the Texas School for the Deaf, the population of the area is expected to increase by 10% over the next year. The school is located in the area and is expected to accommodate the increase in population.

Summer Enrollment Hits Record At PJC

The summer enrollment at Panola College has reached an all-time high. According to the college administration, the increase is due to the increased demand for higher education in the area.

The college has added additional classes and increased the number of instructors to accommodate the increased enrollment.

Lawrence Yard Named Tops

Lawrence Yard has been named the top yard in the city. According to the city officials, the yard is well maintained and has a good reputation.

The yard is located on the outskirts of the city and is surrounded by trees. The city officials are pleased with the yard's performance and have recommended it for future use.

Weather Forecast

The weather in the area is expected to be sunny and warm. The high temperature is expected to be around 90 degrees Fahrenheit.

The forecast is subject to change and the public is advised to monitor the weather conditions for any changes.

Between The Lines

U.S. Stands Tall In W. Berlin

By Jerry Suter

The Berlin Wall, that neatly divides the two parts of Germany, is celebrated as the Berlin Wall Day. The wall was erected in 1961 to prevent East Germans from fleeing to the West, where they could enjoy freedom and democracy. The Berlin Wall has become a symbol of the Cold War and the struggle for freedom.

The Berlin Wall was a physical barrier between two nations, but it also represented a psychological barrier. For many Germans, the wall was a symbol of division and suffering. Despite its height and thickness, the wall did not stop the people of Berlin from finding ways to communicate and share ideas.

The fall of the Berlin Wall in 1989 symbolizes the end of the Cold War and the beginning of a new era of cooperation and understanding. Today, the remains of the Berlin Wall are a reminder of the past and a symbol of hope for the future.

Carthage Cups Circulate
In Most Of Country

In Carthage, Tennessee, a few miles north of the Mississippi River, the Carthage Cup company is turning out more than 30,000 cups a day. The cups are exported to all parts of the country and even to foreign countries. The company has been in business for almost 100 years and is one of the oldest and most established manufacturers of dinnerware in the United States.

The cups are made from a special clay blend that is fired in large kilns. The entire process takes about 24 hours from start to finish. The cups are then glazed and polished before being packaged and shipped to customers.

The company has a large workforce of skilled workers who are responsible for all aspects of the production process. They are dedicated to producing high-quality products that meet the needs of their customers.

Carthage Cups are known for their durability and lasting appeal. They are often passed down from generation to generation, making them a cherished family heirloom.

The company continues to innovate and improve its products, always striving to meet the changing demands of its customers. With a commitment to quality and excellence, Carthage Cups remains a trusted name in the dinnerware industry.
