To Snake Charmer Harold Walton

Snake’s Aren’t “Boa-ring”

In Larry Anstett

When Harold Walton’s pet boa constrictor bit an old man on the cheek, the old man complained to the police and the boa was arrested.

I was at the snake show where I saw a boa constrictor. It was quite scary, but I enjoyed it. I think snakes are fascinating creatures.

The boa constrictor is a species of constrictor that is native to South America. It is one of the largest non-venomous snakes in the world and can grow up to 6 to 8 feet in length.

The boa constrictor is carnivorous and feeds on birds, small mammals, and other small animals. It is known for its powerful and flexible body, which it uses to constrict and suffocate its prey.
