Plans Set For Fire Prevention Week

Fire Prevention Week isn’t over yet, but a number of programs that will continue through the week and possibly beyond are now being prepared by the local fire department. Among these programs will be a number of special events and activities aimed at educating the public about fire safety.

A big part of the overall effort, aimed at making the community aware of fire prevention techniques, will be the 11th annual Fire Prevention Week. The past year has been a difficult one for the community, with several fires breaking out in the area. The fire department is working hard to ensure that these fires do not happen again.

John Weller is in charge of the plans for the week, and the local fire department has received a number of requests for assistance. Weller said he would like to thank the community for their support and for their willingness to participate in the Fire Prevention Week activities.

A number of special events are scheduled for the week, including a fire safety fair, a fire prevention poster contest, and a number of educational programs aimed at children. The fire department is also planning a number of public service announcements and other media campaigns to reach as many people as possible.

The Fire Prevention Week activities will begin on October 11th and continue through October 17th. The local fire department is asking for the public’s help in making the community a safer place to live.

Local Search Planned For Handicapped Children

A search is underway for a group of handicapped children who went missing earlier this week. The children were last seen near a park in the area, and authorities are concerned about their safety.

The children were last seen playing in a nearby playground, and it is believed they may have wandered off. The search is being coordinated by the local police department and other local agencies.

The children are believed to be in good health, but authorities are concerned about their safety in light of their disabilities. The search is ongoing, and anyone with information is asked to contact the local police department.

Despite Loss Of Home In Fire

Carthage Family Termed ‘Lucky’

It’s hard to find a more fortunate story in recent times than the one of the family whose house was destroyed by fire last week. The family lost everything, but they are now living in a new home, which was built for them.

The family lost their home in a fire that started in the early morning hours of October 11th. The fire destroyed the house and the family’s belongings, but the family was able to escape safely.

The family is now living in a new home, which was donated by a local developer. The family is grateful for the support they have received from the community, and they hope to be able to move into their new home soon.

Telephone Poll Reveals Carthage Voters Favor Ford

A telephone poll conducted recently in Carthage has revealed that a majority of voters favor President Ford. The poll was conducted by a local polling firm and included a random sample of 500 voters.

The results of the poll showed that 57% of voters favor President Ford, while 43% favor his opponent. The poll also showed that a majority of voters are dissatisfied with the current administration.

The poll was conducted by telephone, and respondents were asked a series of questions about their views on the current administration and the upcoming election.

The results of the poll are consistent with previous polls, which have shown that a majority of voters favor President Ford.
