Headless Body Named

Found in River Saturday

By Larry Anderson

The body of a man found washed up near the banks of the Panola River in western Texas this week has been identified through the efforts of an investigator from the village of Douglasville who was hired to help solve the murder case.

The body was discovered on Monday by local authorities, who then called in the state’s Department of Crime Laboratory in Austin, where the identity was established.

According to District Attorney Bob Miller of Trinity County, the state’s medical examiner’s office confirmed that the victim was a man, but the cause of death was not immediately known.

The body was dressed in a white shirt and blue jeans, and there were no signs of violence or struggle.

Miller said that the man had been identified through fingerprints, and that the name of his victim will be released after the forensic identification is completed.

Kilgore Folds Indian Teepee

Kilgore, Texas (September 30, 1976) - The Kilgore College Rangers faltered in their second game of the season against the Indian Trade Winds, dropping a 17-0 drubbing to their visitors.

The Trade Winds took control early, with a touchdown in the first quarter. Kilgore, attempting to mount a comeback, was shut out throughout the game. The Rangers' offense struggled, managing only 120 yards of total offense.

Indian Teepee quarterback Jefferson scored both touchdowns for the Trade Winds, with runs of 10 and 20 yards. The defense held Kilgore to a mere 18 rushing yards and 102 passing yards.

With the loss, Kilgore's record falls to 0-2 on the season. The Rangers will look to regroup and face their next challenge in a week's time.

SHOP CARTHAGE FOR CHRISTMAS

WHY SHOULD YOU SHOP AT HOME?

1. When you shop out of town the sales tax you pay goes to that city. NOT CARTHAGE. Why should you pay for another city to prosper at your hometown's expense.

2. The money you spend turns over 8 times before it leaves the county. This is important because if you work here, this money comes back to you in salaries etc.!

3. It costs you money to go out of town to shop. Fuel costs have risen!

4. By shopping at home you reduce the chances of auto accidents due to holiday travelers and increases in traffic flow!
