B’ville Goes For Quickness

Coaches Make Defensive Changes

The key word for the B’ville Indians high school football team this week is quickness. In the past few weeks the Indians have worked hard on improving their ball control and their defense. Coach Jackson said that this week he has been working on getting his players to react quickly to any situation that may arise on the field. The Indians will be facing a tough opponent this week, so they need to be able to respond quickly and effectively.
