Latest diagnostic testing

Hospital okays new machine

Panola General Hospital will be the first hospital in the southeast Texas region to purchase and install a new machine that detects cancerous growths. The machine, a portable unit called a PET scanner, is designed to scan the body for cancerous growths early. It can be used on any patient, regardless of age or pre-existing conditions. The new machine has been approved by the Food and Drug Administration and is expected to be operational by early next year.

Nursing home rates to increase

The board of trustees of the local nursing home have voted to increase rates by 10% effective next month. The increase is necessary to cover the rising costs of operations and maintenance. The rates for single-occupancy rooms will be increased to $80 per day, and for double-occupancy rooms to $60 per day. The board expects the increase to generate an additional $10,000 in revenue per month.

Cadenhead reminding notaries of legal changes in applications

John Cadenhead, local notary public, has reminded all notaries in the area of recent legal changes in the preparation of applications. The changes include the requirement for notaries to complete a background check and to undergo a criminal background check every five years. The changes also require notaries to maintain a record of all transactions for at least five years. Notaries have until the end of the month to update their applications and to ensure compliance with the new regulations.

Action needed to stop attack on embassies

Officially, the Israeli government has acknowledged that the recent terrorist attacks on its embassies are a major threat to national security. While the Israeli government has taken steps to prevent future attacks, it is clear that more needs to be done to protect the safety of the embassies and their staff. The international community must also take a stronger stance against terrorism and work to prevent similar attacks from occurring in the future.

Reagan idea may be essential

In an attempt to fix the problems within the government, President Reagan has proposed a new budget proposal. This proposal seeks to reduce government spending and increase taxes. While some may see this as a step in the right direction, others believe that it will only lead to further economic problems. It remains to be seen whether this proposal will be successful in addressing the challenges facing the government.
