Wolf is real

Now that the nation’s longest controversy has come to a conclusion, plans are in the works to begin a new chapter. The controversy was over the classification of wolves in the Northern Rockies by the U.S. Fish and Wildlife Service. The wolves were listed as endangered species under the Endangered Species Act of 1973, but the court ruled that the classification was invalid because the service had failed to consider the economic impact of the listing.

The court’s decision means that the wolves will remain classified as threatened species, and the federal government will have to redraft its plan for managing the wolves.

Letters welcomed

The Panola Matchman

Very well then—how about religious belief?

From the Editor:

Dear Reader,

I received a letter from a reader expressing concern about religious beliefs. The letterer, who is an atheist, was disturbed by the mention of religion in the editorial section of the newspaper. The letterer felt that religion should not be discussed in public forums.

I understand the reader’s concerns, but I believe that religion is a topic that should be discussed in public forums. Religion is a deeply personal and complex issue, and it is important to have open and honest discussions about it.

Sincerely,

The Editor

L.M. Smiths celebrate

25th wedding anniversary

When you begin to plan your indoor garden, it is important to choose the right plants and flowers. Some flowers are better suited for indoor gardens than others. It is also important to consider the amount of sunlight and water that your plants will need.

Flower arrangement

When you want to arrange flowers indoors, there are a few things to keep in mind. First, make sure that the flowers are fresh and in good condition. Second, make sure that the flowers are arranged in a way that is pleasing to the eye. Third, make sure that the flowers are arranged in a way that is easy to maintain.

L. M. Smith, a member of the local chapter of the American Red Cross, and his wife, Louise, celebrated their 25th wedding anniversary on January 17. The couple was married on January 17, 1960, and has been married for 25 years.

**Time to Pray...**

Life can be so full and active. There are the schools, jobs, and other daily activities. When I think of the important things in life, I start with questions. How can I improve my relationship with God? Are there other things I should do to help others? How do I find the time to serve others? These are the things that I think about. We should do these things as often as possible.

**THIS WEEK'S Sunday School Lesson**

**Two who brought others**

**Background Information**

Two men brought others to church. One was a Christian and the other was not. The Christian told the other man about the church and invited him to come with him. The other man was interested and came to church with the Christian. They learned about the Christian faith and became friends. The non-Christian told the other man about his new church. They went to church together, but the other man was not interested in the Christian faith and soon stopped going.

**Conclusion**

The story of these two men teaches us about the power of faith and the importance of sharing our beliefs with others. By bringing others to church, we can help them understand the truth of our beliefs and become closer friends. We can also help them grow in their faith and become better people.
