Dee's Doodles

by Alice Green

A letter from David Green arrived at the after-lunch break. "The people who are talking about the mall," he wrote. "They're only talking about the mall, and they're not talking about the people who are going to work there."

You may not want to work in the mall, but you can't deny that it will bring jobs to the area. And if you're a business owner, you'll want to get your share of the customers who will be shopping there.

So, if you're not planning on working in the mall, at least think about it. It could be a good opportunity for you.
