Saudi airpower

I find it hard to believe that the United States is preparing to send a task force to the Persian Gulf to protect the airbase in Saudi Arabia. The United States has been an active participant in the Iran-Iraq war, which has been going on for several years. The United States has provided military aid to both sides in the war, but it has not been clear what role it is playing. The United States has also been trying to negotiate a peace settlement between the two countries, but so far these efforts have not been successful.

The United States has been concerned about the Iran-Iraq war because it is concerned about the stability of the Persian Gulf region. The United States has been trying to prevent the war from spreading to other countries in the region. The United States has also been concerned about the potential for the war to involve other countries, such as Iran, Iraq, and Saudi Arabia. The United States has been trying to prevent the war from involving other countries, but so far these efforts have not been successful.

I believe that the United States should not be involved in the Iran-Iraq war. The United States should focus on its own domestic problems, such as the economy and the budget. The United States should not be involved in a war that is not of its own making.

The two wars

Dear Editor,

I am writing to express my concern about the two wars that are taking place in the Middle East. The war in Iraq is a war of aggression, and it is not justified. The United States should not be involved in this war.

The war in the Iran-Iraq war is a war of defense, and it is justified. The United States should not be involved in this war.

I believe that the United States should withdraw its troops from the Persian Gulf. The United States should focus on its own domestic problems, such as the economy and the budget. The United States should not be involved in a war that is not of its own making.

Non-involvement in the Middle East

As a U.S. citizen, I am concerned about the United States’ involvement in the Middle East. The United States has been involved in the Middle East for a long time, but I believe that the United States should not be involved in the Middle East. The United States should focus on its own domestic problems, such as the economy and the budget. The United States should not be involved in a war that is not of its own making.
