SFA plans 2 new programs

New programs are in the works at Stephen F. Austin State University, according to school officials. The first, a Master's Degree in Teacher Education, will focus on improving the quality of teaching in the region. The second, a Doctorate in Physical Therapy, aims to address the growing demand for therapists in the area. Both programs are expected to begin in the fall of 2023.

EAST TEXAS LARGEST!
More positive role needed

The United States must assume a more constructive role in international affairs.

The history of the United States as a world power is characterized by a sometimes conflicting set of goals and objectives. The country has long sought to promote democracy and human rights, but at the same time, it has often acted in ways that undermine these principles.

The United States should play a more active role in promoting peace and stability. This could include supporting international institutions such as the United Nations and the World Bank, and engaging in diplomacy to resolve conflicts.

Whole picture in necessary

By ANTHONY BARBER

Contemporary designs, the emphasis on small sizes, and the use of materials such as chrome and glass have made table lamps not only functional objects but also stylish and decorative pieces. They are available in a wide range of shapes and sizes, and can be used to enhance the ambiance of any room.

Sitting The News

This year's autumn fashion collection is characterized by a strong emphasis on comfort and practicality. The trend toward casual clothing is evident in the use of soft fabrics and relaxed fit, and the colors are muted and understated. The collection includes a variety of styles for both men and women, with pieces that can be dressed up or down depending on the occasion.

As Beallsville representative

Griffin named to ETCOG

Griffin, a long-time advocate of environmental protection, has been named as the new head of the Environmental Technology Corporation of Greater Ohio. Griffin has been a vocal supporter of renewable energy and has worked to promote the development of clean energy technologies. His appointment is seen as a positive move towards a more sustainable future.

As I See It

Take a kid fishing: super idea

By RICHARD CONRAD

One of the many great things about living in Pana is the availability of great fishing, especially near Lake Meriwether. There are several good spots to fish in the area, and the Lake Meriwether area is one of the best.

The official title of the tournament is the First Annual Fishing Tournament. The tournament will be held at Lake Meriwether, and it has been organized by the Pana Fishing Club. The tournament will be open to the public, and everyone is welcome to participate.

The major sponsor of the tournament is Gibson's, and they have provided generous support to make this event possible. The tournament will be held on Saturday, August 12th, and the fishing competition will take place from 8:00 AM to 5:00 PM.

The tournament will be broken down into two age categories: youth and adult. The contestants will be divided into teams of five, with a maximum of two adults and three youth. The fishing rods and tackle will be provided by Gibson's, and the contestants will be responsible for their own bait and tackle.

The winners of the tournament will be determined based on the total weight of the fish caught. The trophies will be awarded to the top three winners in each category, and there will also be an overall champion.

I am very excited about this tournament, and I believe it will be a great opportunity for everyone to enjoy the beautiful waters of Lake Meriwether and experience the joy of fishing.

Negro leagues part of baseball heritage

The Negro leagues were an integral part of the history of American baseball. These teams were made up of African American players who were not allowed to play in the major leagues due to racial segregation.

The Negro leagues were known for their skilled and talented players, and they played against each other in various leagues across the United States. The leagues included the American Negro League, the Negro National League, and the Negro American League, among others.

One of the most famous Negro league players was Jackie Robinson, who later broke the color barrier in Major League Baseball. Robinson played for several teams, including the Kansas City Monarchs and the Brooklyn Dodgers.

The Negro leagues were a vital part of the African American community and provided a means for black athletes to excel and compete at a high level. These teams also served as a source of pride and representation for black communities across the country.

Trivia quiz

Don Sutton, a mystery in his own time

In the world of baseball, Don Sutton is widely regarded as one of the greatest pitchers of all time. But despite his incredible career, there is still much mystery surrounding his life.

Sutton was known for his durability and longevity, and he played for several teams throughout his career. However, the details of his personal life are shrouded in secrecy.

There have been rumors about Sutton's personal life, such as his alleged involvement in criminal activities and his alleged drug use. But there is no clear evidence to support these claims, and they remain unverified.

Despite the mystery surrounding his personal life, Sutton's contributions to baseball are undeniable. He was a true legend on the diamond, and his legacy will continue to inspire future generations of players.
Beckville plans vocational program

Beckville will soon be the home of a new vocational education program. The program, which is being established in cooperation with Hardin-Jefferson Independent School District, will offer students a variety of career preparation options. The district is looking to incorporate the program into its existing curriculum, aiming to provide a strong foundation for students' future success.
