The Iranian madhouse

Security for living is a country’s right. The right to live within the boundaries of their own countries. That, we believe, is a basic right. The right to live within the boundaries of their own countries. That, we believe, is a basic human right. And the Iranian government is denying that right to the people of Iran. They are living in fear of a people who do not have the right to live within the boundaries of their own countries. That, we believe, is a basic human right.

--- Letters to the Editor ---

Dear Friend,

I am writing to express my concern about the current situation in Iran. The Iranian government is denying the basic human right of the people of Iran to live within the boundaries of their own countries. That, we believe, is a basic human right. The Iranian government is denying the basic human right of the people of Iran to live within the boundaries of their own countries. That, we believe, is a basic human right.

Sincerely,
