New road repair policy has teeth

Papaloa County Commissioners have decided to adopt a new road repair policy that will require contractors to provide a bond for the cost of the repair work. The policy is designed to prevent repeat offenders and ensure that repairs are completed promptly.

Area woman killed as car runs off highway 59

A woman was killed when her car went off the highway near Carthage. The car went over an embankment and landed on the side of the road. The driver was pronounced dead at the scene. The papaloa County Sheriff's Office is Investigating the cause of the crash.

County's deposits top $177 million mark

The papaloa County government has reported that its deposits have reached a record high of $177 million. The increase is due to a strong economy and increased tax revenues.

Torn water line causes problems

A water line in the papaloa area was torn by a construction crew, causing a water main break. The papaloa Water Department is working to repair the break and restore water service to affected areas.

A LOOK AT IMPORTANT ISSUES FACING PANOLA COUNTY TODAY

Letter to the editor

Sabine River fisherman, camper responds to Talkline question

To the Editor of Panola County Times:

I am writing to express my disappointment with the recent discussion about the Sabine River on the Talkline program. I have been a resident of the area for many years and have witnessed the changes in the river's ecosystem firsthand.

Fishermen and campers like myself rely on the Sabine River for our livelihood and recreation, but the recent policies have put us at risk. The proposed dam will have a significant impact on the river's flow and water quality, affecting both human and wildlife populations.

I urge you to consider the long-term effects of these decisions and to promote actions that prioritize the health of the river and its inhabitants. Together, we can ensure a sustainable future for the Sabine River and its communities.

Sincerely,

[Signature]

---

Boosters Club president thanks community

In the spirit of unity and appreciation, the Booster Club of Sabine High School extends its gratitude to the community for their unwavering support. The recent fundraising event was a testament to the collective spirit of our town.

The success of the event was not possible without the dedication of our volunteers and the generosity of our donors. Their contributions have enabled the Booster Club to continue fostering a vibrant and inclusive environment for our students.

Let us continue to celebrate the achievements of our students and support their dreams. Together, we can build a brighter future for Sabine High School.

Sincerely,

[Signature]

What do you think about tv commercials?

By Earl Chamber

What do you think about commercials on television? I find them annoying, but I cannot control my thoughts. They are everywhere and always invading my mind.

Some commercials are entertaining, but the majority are just a waste of time. The only ones that I tolerate are the ones that are educational or informative.

Do you have any thoughts on this topic? I would love to hear your opinions.

---

Legislator’s vote often quicker than the eye

By Edwd. Johnson

In response to the recent article on legislation, I would like to share my perspective. The legislative process is often delayed due to various factors, including the need for compromise and the complexity of issues.

However, it is important to recognize the speed at which legislators make decisions. Some votes can be reached quickly, reflecting the alignment of interests and the urgency of the matter.

While this may not always be ideal, it is a testament to the democratic process. As citizens, we should remain engaged and informed to ensure that our voices are heard.

---

School students need computer science

By James Smith

It is unfortunate that computer science is not required in our schools. The demand for technology professionals is increasing, and students should be provided with the necessary skills to succeed in this rapidly evolving field.

Introducing computer science at an early age can ignite a passion for technology and innovation. By equipping our youth with these skills, we are empowering them to shape the future.

Let's work together to ensure that our students are prepared for the challenges and opportunities of the digital age.

Carthage JH Bands gather Sweepstakes Awards

Carthage Junior High Eighth Grade Sweepstakes Band

by Walter Jones

Carthage Junior High Eighth Grade Sweepstakes Band received the Sweepstakes Award for their outstanding performance at the Panola County Fair. The band members, under the direction of Mrs. Lynda R. Smith, have been practicing diligently for weeks to achieve this prestigious accolade.

Their hard work and dedication paid off, as they received the Sweepstakes Award for their exceptional musical skill and overall performance. This achievement is a testament to the talent and commitment of the Carthage Junior High Band students.

Congratulations to the Carthage Junior High Eighth Grade Sweepstakes Band on this wonderful achievement. Their dedication and perseverance have set a high standard for future performances.

Downtown group works on plans

Murriate water rights defended

Quick action saves fiery crash victim

New court proposed

As the Murriate community works on plans to improve the downtown area, one concern is the defense of water rights. Murriate residents have come together to challenge the ongoing efforts by UT officials to challenge the water rights of the community. In a recent court case, UT officials have attempted to declare Murriate's water rights invalid, a move that could have significant implications for the community. In response, local residents have taken action, successfully preventing a fiery crash victim from being harmed. This incident highlights the importance of vigilance in protecting community interests. A new court proposal has been put forward, aiming to secure Murriate's future and ensure the protection of its water rights.
