Harvey draws probation for shooting

By Austin Manuel

A 14-year-old homeless boy who had been found guilty of shooting a man in the back of the head in a Pauline convenience store was sentenced to a year of probation yesterday by Judge Matthew Reeves.

The defendant, who was not named in the court's order, said he did not remember the incident and that he had been drinking before the shooting.

Judge Reeves said he was concerned about the defendant's future and granted him the probation as a way to keep him out of trouble.

The defendant was also ordered to stay away from the victim and to undergo counseling.

Editorial:
Medicare's new plan could prove good

When Medicare first came into being, it was thought of as the "safety net" for the elderly. However, as the years went by, Medicare became more and more of a burden on those who are covered.

The concept behind Medicare was good. But like most things, it was not perfect. The program was set up to provide health care to those who could not afford it. However, Medicare has not met its goal of providing health care to those who need it.

The program has been criticized for not being effective enough. Many seniors have found that their Medicare does not cover all of their medical needs. They have been forced to pay out-of-pocket for medications and other medical expenses.

The problem with Medicare is that it is not set up to provide health care to all seniors. The program is funded through taxes, and the amount of money given to Medicare is not enough to cover the needs of all seniors.
