A LOOK AT IMPORTANT ISSUES FACING PANOLA COUNTY TODAY

Wednesday, January 11, 1984

Editorial:
It's not so simple

Everybody wants to see illegal drug traffic stopped in Panola County. But let's face it, the federal government has created a monster. It's true that the use of illegal drugs, such as marijuana, has increased, but it's also true that the government's policies have created a situation where drug dealers can make enormous profits.

Some people want to see the government do something about it, but the problem is not as simple as that. The government has been trying to combat the drug problem for years, but it's not as easy as it seems. The government needs to be more creative and come up with new ideas to combat the problem.

The government needs to take a look at the bigger picture and consider the consequences of their actions. The government needs to be more transparent and open about their actions and how they are affecting the people. The government needs to take a look at the bigger picture and consider the consequences of their actions.

I'm a pie-person on my birthday

By Dr. Rose G. Jones

I'm a pie-person on my birthday. I love pie, especially when it's homemade. I've been making pies since I was a little girl and I've never gotten tired of it. I think the reason why I love pie is because it's so versatile. You can make it with any kind of fruit, and it can be sweet or savory.

I've been making pies for as long as I can remember. My mother used to make them for me when I was a little girl, and I always loved them. I've been making pies for as long as I can remember. My mother used to make them for me when I was a little girl, and I always loved them.
