Official says local probation program is paying off

By Nancy Wolfe

The once-dreaded 152nd District
Probation Office has officially
earned its stripes. The office, which
was created in 1974 to keep prob-
ated offenders on the straight
and narrow, is putting its pro-
nounced results to the test.

"I don't think I could say 100% that all probation cases are a success, but I think overall our results are very good," said James Brown, Supervisor of the 152nd District Probation Office.

Probation results discussed

As the district attorney and the proba-
tion department have no reason to fear any new developments in their department, the 152nd District Probation Office has been keeping a close eye on the progress of its cases. In 1993, with the help of new technologies and a dedicated team of workers, the office has been able to maintain a 95% success rate.

House speaker’s letter poses agency problems

In a letter to the editor, the speaker of the house expressed concern over the increase in the number of agencies in the state. The speaker noted that the state’s budget is strained, and called for a review of the number of agencies to ensure that they are necessary and effective.

Win three of four in series

**PJC manhandles rowdy Ranger**

By TERRY LEVY

West Ranger "Rowdies" took their second straight, and third overall, conference loss to Panola College's Tigers Saturday afternoon at the Ranger Athletic Complex. The Tigers defeated the Rowdies 2-0, improving their conference record to 3-0, and extending their overall record to 6-1-2.

The game began with an early goal from the Tigers. Tiger striker Mike Trotter gave the Tigers the lead in the first half, scoring on a penalty kick. The Rowdies, however, were unable to answer, and the game went into halftime with the Tigers leading 1-0.

In the second half, the Tigers continued their dominance, scoring their second goal on a penalty kick from striker Cameron Anthony. The Rowdies were unable to respond, and the game ended with a 2-0 victory for the Tigers.

The win was an important one for the Tigers, as they continue to build momentum in the conference standings. The Rowdies, on the other hand, will need to bounce back quickly if they hope to compete for a conference title.

Summer's almost here and we're looking forward to it. The sun's been out for weeks. All through March and April, we've been in the weather. It's been so nice, so warm. Now we can wear our shorts and T-shirts. We can go swimming in the pool. We can have picnics in the park. We can play frisbee and baseball. We can have ice cream and popsicles. It's going to be a great summer. We're going to have fun. We're going to enjoy ourselves. We're going to have a good time. We're going to enjoy the weather. We're going to enjoy the sun. We're going to enjoy the pool. We're going to enjoy the park. We're going to enjoy the frisbee and baseball. We're going to enjoy the ice cream and popsicles. We're going to have a great summer. We're going to have a great time.

Easter eggs priced right for savings, nutrition

By M. W. B. R. E. of Cocoa, 3rd cousin, twice removed, to John Q. Public

The annual Easter egg hunt at Parkland Elementary School, scheduled for April 11, promises to be a fun-filled event for children of all ages. This years event, sponsored by the Parent-Teacher Association (PTA), will feature over 5,000 eggs filled with candy and prizes. Registration begins at 8:00 am and ends at 9:30 am, with the hunt starting promptly at 10:00 am.

Easter egg hunts are not only a beloved tradition in many communities, but also serve as a valuable educational tool. According to the National Institute of Health (NIH), eggs are an excellent source of protein, providing essential nutrients that are vital for growth and development. Additionally, the colorful and playful nature of Easter egg hunts can help children develop fine motor skills, hand-eye coordination, and other important cognitive abilities.

Egg prices have risen in recent years due to factors such as inflation and increased demand. However, organizers of the Parkland Elementary School event have taken steps to ensure that the price remains affordable. They have focused on sourcing high-quality eggs from local suppliers, which not only benefits the community but also supports local businesses.

Organizers have also implemented measures to enhance the safety of the event. With the current pandemic, they have increased sanitation protocols and maintained social distancing guidelines to ensure a safe environment for all participants. This includes organizing the hunt in several smaller groups to minimize the number of people in any one area.

Overall, the Parkland Elementary School Easter egg hunt promises to be a fun and educational event for children and families alike. With careful planning and a focus on safety, it is sure to be a memorable occasion that will provide children with a lasting memory of this joyful holiday tradition.
