Water facility expansion gaining momentum

By Earl Chandler

News-Register

A 50-year-old dream is finally becoming a reality as the city of Newberg moves forward with the construction of a new water treatment plant. This project is expected to cost upwards of $10 million and will significantly increase the city's water supply capacity.

The new facility is being built on a 10-acre site near the current plant, which was constructed in the early 1950s. The old plant will be demolished to make way for the new expansion.

Millions available in scholarship funds

By John Smith

News-Register

The Panola County Community Foundation has announced the availability of millions in scholarship funds for the upcoming school year. These funds are available to students who meet specific criteria and are accepted to higher education institutions.

The foundation, established in 2005, has awarded over $1 million in scholarships to date. Eligibility for these funds varies depending on the specific scholarship.

City meets Monday

By Mary Johnson

News-Register

The city council will meet on Monday to discuss various issues, including the proposed water treatment plant expansion. The meeting will be held at the city hall and is open to the public.
Concession stand best place for 'tasty tidbits'

In the state of the arts where I've been living and working, the location of the concession stand is often a matter of perspective. For those seeking a quick snack, it's the perfect spot to grab a bite to eat before heading back to the theater. For others, it's just another line to stand in.

As a concession stand manager, I've learned that the key to success is providing a variety of options that cater to all tastes. Whether you're in the mood for something sweet or savory, we've got you covered.

Election may be interesting, after all

By Bill Miller

You know the kind of mind that's always thinking ahead. That's what brought me to my current position as election commissioner. It's a job that requires a lot of planning and strategy, but I enjoy it.

In my role, I'm responsible for ensuring that the election process runs smoothly. That means coordinating with other departments, like the county clerk and the sheriff, to make sure everything is in place. It's a lot of work, but I think it's worth it to make sure that everyone has a fair and equal opportunity to vote.

This election season is shaping up to be particularly interesting. With so many candidates running for office, it's clear that people are passionate about the issues.

I'm looking forward to seeing how the vote plays out. It's always exciting to see how people make their voices heard.

Wright earns communications degree from UT at Austin

Mr. and Mrs. Robert Wright are pleased to announce that their son, John, has received a degree in communications from the University of Texas at Austin. John has been a hard worker and has shown a strong commitment to his studies.

Wright has been active in the community and has been involved in several extracurricular activities. He has been a member of the track team and has volunteered at local hospitals.

The family is proud of John's achievements and looks forward to seeing him continue to succeed in the future.

**Panola Stars lose first tourney game, 10-2**

Panola County hosts third time was good, ninth time was not good for the Panola Stars in their first tourney game against Nacogdoches.

The Stars played well in the first half but let their guard down in the second half, allowing the Eagles to score 10 runs in the second inning.

The game began as both teams were evenly matched, but Nacogdoches soon pulled ahead after scoring two runs in the first inning. The Stars scored one run in the second inning to tie the game, but the Eagles scored six runs in the third inning to take control.

Panola County's star pitcher, in the first half of the game, pitched a strong game but was out of the game in the second inning due to injuries. The Stars struggled to score runs in the second half, as Nacogdoches' defense was strong and kept the Stars' batters off their game.

Despite the loss, the Stars' manager praised his team's performance in the first half of the game, saying, "We played well in the first half, and we need to work on our defense in the second half if we want to win tomorrow.

**Johnson near perfect in 5-1 Panola victory**

Mark Johnson dominated the field on Saturday and pitched a near perfect game for Panola County.

In his seven innings of work, Johnson allowed just one run on six hits and retired 20 batters in a row. He also struck out four batters and walked two.

The game started with Johnson on the mound and the Stars scoring three runs in the first inning. Johnson pitched six more innings of one-run baseball, scattering seven hits and striking out seven batters.

"Mark pitched a great game today," the manager said after the game. "He threw strikes and kept the ball low, and he kept the batters off balance.

The Stars scored five runs against Nacogdoches in the first inning, and Johnson kept the Eagles scoreless in the remaining innings. He was taken out of the game in the seventh inning after allowing one run on three hits.

Panola County's bats were hot, scoring five runs on eight hits and seven walks.

"Our offense is on fire," the manager said. "We need to keep hitting and pitching like we did today.

The Stars take on Nacogdoches again on Sunday, looking to bounce back from their first loss of the tournament.

HB 72 school reforms detailed for board

School supervisors across the state of Texas have long been pushing for reforms to the state's public education system. The board of trustees at the CISD (Crawford Independent School District) met on Tuesday to discuss the details of HB 72, a new bill that aims to implement several changes to the current educational landscape in the state.

The bill proposes several key reforms, including an increase in funding for schools, a reduction in standardized testing, and a shift towards more personalized learning experiences. The board members expressed both support and concern for the bill, with some members calling for additional research and data to support the proposed changes.

A number of community members attended the meeting, expressing their thoughts and concerns about the bill. Some praised the bill's goals, while others were skeptical of its feasibility and potential impact. The board will continue to discuss the matter and will make a decision on how to move forward with the implementation of HB 72 in the coming months.

GOD KINDLED THE FIRE THAT BROUGHT COMFORT INTO OUR LIVES

As you gaze at the driving storms of life,
You're a summer night, or the burnings
Your spirit next winter, think about this
Feasting advertisence, that has enabled us
to produce and control our own source of heat
and light. Without the discovery of fire, much of
our work would be confided to the servile hand
of the chimney as the only source of light in
winter; while, according to the now highly
ascertained, God in his wisdom took the
owe to the blazes of fire and its primitive
remained with us to this day. Like the other
perils and pleasures of destiny life, God gave
them to mankind to be caught by necessity.
In the name of the Lord Jesus, who is about
to be the Sun of Righteousness, and who has
brought us to warmth and comfort, and sparked
the very source of heat all through the ages.

These merchants urge you to attend the chosen house of worship this Sunday!!
