Comanches worried settlers

They called themselves the Comanches, but they were known as the "Red jackets of Texas" because of the red cloth they wore in the cold winters. They were a fierce and independent people, who resisted the efforts of white settlers to take their land. The Comanches were skilled horsemen and warriors, and they became feared enemies of the white settlers who encroached on their territory. The Comanches' resistance to the white settlers was a challenge to the colonial government, who sought to control the region and its resources. The Comanches' war with the white settlers continued for many years, and it was only after the Civil War that a peace treaty was signed with the Comanches, allowing them to remain on their land. The Comanches' war with the white settlers was a symbol of the struggle of indigenous peoples against colonialism and the displacement of their way of life.

Why Is Clara Skinner Running For State Representative?

As a working person, wife, and mother, Clara Skinner can understand the problems of our community. She is aware of the issues such as rising utility bills, increasing fees & taxes, and the cost of living in general, affecting the level of our family's standard of living. The incumbent representative has not been helpful. In fact, he has voted for increasing your fees & taxes. And to make it worse, he does not listen to his constituents. Instead, he has become a part of the Austin political clique led by Map White & R. Passal. He is unable to start the necessary change at home, by defeating the incumbent State Representative, and that is why she is running for State Representative.
School menus

Sauted mushrooms, cooked chicken, vegetables, pasta, macaroni & cheese, rice, and bread are some of the menu items.
