**DONT BE TRICKED**

Edd Hargrett is trying to deceive us all. Think a minute about the campaign he is waging.

1. He attempted to deceive the Court of Appeals into believing Richard Anderson should not be on the ballot. They were not deceived.

2. He attempted to deceive the Supreme Court into believing Richard Anderson should not be on the ballot. They were not deceived.

3. He attempted to deceive us into believing Richard Anderson was convicted of nothing child support. Richard Anderson was not convicted of anything and he paid every penny of his child support and has a trust fund set up for his daughter in addition to helping pay for her college education.

4. He attempted to deceive us into believing Richard Anderson bought a house for $15,000,000.00. The true facts are Richard Anderson bought 230 acres of land on which the old house was located. He financed the purchase of the land and house and the house was unhabitable when he made the purchase.

5. He attempted to deceive us by showing a picture of a new car in front of the house after the house was put in a livable condition primarily by Richard's labor. The truth is Richard Anderson's car is 8 years old.

These are the true facts. Shame, shame on you Edd.

New car deals raise eyebrows

By ALAN MILLER

March 15, 1986

Auto dealers are finding it difficult to keep up with the ever-increasing demand for new cars. Sales are surging and the industry is struggling to meet the demand. Dealers are raising prices to keep up with the high demand. This is causing some controversy among car buyers.

The rise in prices is due to the increasing popularity of luxury cars. People are paying more for cars that are not as practical as those they used to buy. This is causing some backlash from consumers who are not happy with the higher prices.

Auto dealers are trying to keep up with the demand by increasing production. This is causing some problems as factories are struggling to meet the demand. Some dealers are also trying to raise prices to keep up with the rising costs.

The rise in prices is causing some controversy among car buyers. Some people are not happy with the higher prices and are looking for ways to save money. This is causing some tension between dealers and consumers.

The rise in prices is also causing some problems for dealers. They are having to work harder to keep up with the demand. This is causing some stress for dealers who are already struggling to keep up with the high demand.

Medicare has probably had a greater impact on the lives of all Americans than any other program. It has served as a model for many other national and international programs. People living in a country where health care is unavailable or unaffordable because of the high prices of medical services, may be able to obtain help through Medicare, especially if that care is for a certain disease. This is another aspect of Medicare's importance to many Americans who will eventually become recipients of Medicare services.

Medicare impacts Panola County

Medicare has been providing medical services to people over the age of 65 for many years. It is a federal program that pays for hospitalization and other medical expenses for people who are eligible. It is funded through taxes paid by all workers and employers. These taxes are used to pay for Medicare benefits and to pay for other federal programs. Medicare is a truly a universal program because it provides coverage to all Americans who are eligible for it. It is not just a government program, but a program that is available to all Americans who are eligible to receive it.

Medicare is a program that is designed to meet the needs of people over the age of 65. It is a program that is funded through taxes paid by all workers and employers. This program is a way to ensure that people over the age of 65 have access to the medical services they need. It is a program that is designed to meet the needs of people over the age of 65. There is some evidence that the Medicare program has increased the number of elderly Americans who are living longer. This is because Medicare helps pay for the medical expenses of elderly Americans. Panola escapee captured

By DAVID BRUCE

"At the start of the scene, the music was too loud. We had a hell of a time getting the music just right," Delmar Johnson, the owner of the club, said. "But once we got the music right, it was a success." Johnson said the club, which is located in the town of Panola, was closed down after the incident. He attributed the closure to the noise level and the general lack of customer service.

Johnson said the club, which has been open for only a few months, was closed down after the incident. He said the club had been closed down several times in the past due to noise complaints, but this was the first time the club had been closed down for a reason other than noise.

The club is located in the town of Panola and is one of the few entertainment venues in the area. Johnson said the club had been open for only a few months, but he was hopeful that it would be successful.

A 19-year-old male was arrested Friday for escaping from the Panola County Jail. The suspect was last seen walking north from the jail along the back road.
