The trial of the two men ended last week with a verdict of guilty for both men by a jury of six men and six women. The men were sentenced to prison terms of two to 20 years each.

Efforts to fund a new water sys-
tem for the Deadwood Water Supply Corporation are closer to reality. A series of meetings between corporation officials and represen-
tatives of the Farmers' Home

Purpose of the meeting was to discuss open-end conditions which must be met before further con-

The conditions are due in June, and if they cannot be met, the corporation will have to seek an alternative source of funds.

For me? You shouldn't have!

James Hill tossed 53 last Thursday, but it didn't seem to celebrate. Things turned out to be his 53rd birthday cake at James Hill's place of business. A large birthday cake served by Mr. and Mrs. Hill was shared with all the folks in attendance who wanted to participate in the festivities. The cake was decorated with a large number 53 on the top and was cut into bite-sized pieces for everyone to enjoy.

Court fights emerge: UT segregation

Herman Brown returned to the University of Texas at Austin to protest the University’s decision to postpone implementation of the Jackson Square housing plan until next month. The protest was the first of its kind and came after the university announced its decision to freeze the plan.

Brown was in the midst of the 1968 sit-in that led to a 1969 court ruling that the university violated a federal order to provide housing for black students. The ruling led to a series of protests and negotiations that eventually led to the creation of the Jackson Square housing plan.

Brown said he was tired of waiting and decided to take action. "I don’t have a lot of time left," Brown said. "I want to see justice done." He added that he had been arrested several times for similar protests.

The university, on the other hand, said it was taking a cautious approach to implementing the housing plan. "We understand the urgency," said university spokesperson David Stoeckley. "But we also need to do it right."

Despite the protests, the university said it was committed to implementing the housing plan. "We understand the concerns," said university president Bill Powers. "But we also need to do it right."

PERSPECTIVES

White compared to Carter

Bob Graham, White and Carter have each served as a senator in Florida and have run for president in the past. White has also served as a governor. Carter has served as a congressman and a governor. 

Many people believe that White and Carter are more similar than different. They both have strong leadership skills and are able to connect with the public. 

Both White and Carter have a long history of public service. 

White supporter responds

"I support Mr. White because he has a proven track record of leadership and has been a strong advocate for the people. His policies have helped to improve the quality of life for all Floridians."

The election is set to take place on November 8th. Be sure to vote and make your voice heard.

Ranchers should call now

By Mark C. Davis

County Extension Agent

The Florida Department of Agriculture and Consumer Services has released its 2022 crop report, which predicts that the state will have a strong crop year. The report highlights the importance of agricultural production and its impact on the economy.

The report predicts that Florida’s agricultural industry will experience a strong growth in 2022. The state’s farms are expected to produce a record harvest of crops, which will lead to increased income for farmers.

The report also notes that the state’s agricultural production is expected to continue to grow in the future. This is due in part to the state’s favorable climate and the availability of fertile land.

Better person

I have a pet in my class about how I can make a difference. It’s a great example of how each of us can make a positive impact. But the question is, how can we make a difference in the world?

One way is to support local businesses. Support your local farmers, shop at your local farmers market, and buy local food. This will help support the local economy and provide a source of income for local farmers.

College classes are not always required, but I believe they are important. They help us learn valuable skills that we will need in the future.

The guaranteed inside dope on 14 Alfrusans started club

Now that my last book has flown the coop, it's back to business as usual for the 14 Alfrusans started club. One of the reasons why this group was formed was to provide an inside look at the world of fashion. It's not just about clothes, it's about the lifestyle that goes with them. However, the truth of the matter is that for many of us, "fashionistas" live in an illusion. They spend countless hours perfecting their image, but in the end, it's all about being a part of the 14 Alfrusans started club. The group has always been about diversity and inclusivity.
