Texas Ranger addresses post

"You have to be a Ranger to be a Ranger," said Capt. John S. Chisholm, chief of the Texas Rangers' training program. "Our job is not just to protect the law, but also to serve as an example of what it means to be a Ranger."

Chisholm addressed the audience at a conference on the future of the Texas Rangers, held at the State Capitol in Austin. "We have a responsibility to ensure that the Rangers continue to be a force for good in this state," he said. "We must always be ready to respond to the needs of our citizens, and to uphold the law in the face of adversity."

Cattle suspected of brucellosis — Charges dismissed against rancher

By Tom Kaylor

County Sheriff Mike Berteletti, who has attended several court hearings on the rancher's case, said the rancher will not face charges.

Lawrence and Maxwell had suspected 78 head of cattle, including 61 head on the rancher's property, of having brucellosis. However, after a lengthy investigation, the suspicion was dismissed.

Lawrence had the cattle tested for brucellosis, and although only two tested positive, he said the rancher did not provide the proper facility for testing. However, the rancher did not provide the proper facility for testing. However, the rancher did not provide the proper facility for testing.

Consider painting a house on a drizzly day. While the paint may not stick to the walls, it will likely remain suspended in the air. This will prevent the paint from spreading out on the walls.

Controlling parasites

By Mark C. Cook

The single most important pest on this year's farms is the tick. In addition to causing animals great stress, ticks can carry diseases such as Lyme disease and tularemia. A process called pre-mating management, or PMM, can help control tick populations.

Ponies ink top scorer

By TED LEACH

DANAS — Panola coach Austin

Haslup found his top scorer in

Glen's Russell Duvall, who has

been a consistent performer this

season. Duvall, a senior, has

averaged over 15 points per game

and leads the team in scoring.

Haslup said Duvall's ability to

score from the perimeter has

been key to the team's success.

Duvall's shooting has helped

the Ponies to a 16-6 record and

they are currently in the thick of

the district race.

The Ponies' next game is

scheduled for Tuesday, April 10,

against Carthage. Haslup expects

a tough match, but is confident

in his team's ability to compete.

Haslup said, "We're looking

forward to the challenge and

we'll do our best to come out

with a victory."
Paris rougs up 

Ponies in opener

By TED LEACH

Paris roughed up Ponies and scored on a shaky third to tie the game and break the school record for points scored in a game. The Cavemen, however, were unable to hold the lead, and the game was called off in the fourth quarter.

Ponies' lead was 10-0 at halftime, and they were up 17-7 at the end of the third quarter. Paris' defense was solid, holding Ponies to just 10 points.

Daughters of Republic of Texas will be here

Ceremony set at little-known boundary marker

By Dorothy Award

If you were to go to the east, you would be walking on the border of the United States of America. If you were to go to the west, you would be walking on the border of Mexico. Where are you standing? If you are standing on the border of the United States of America, you are standing on a little-known boundary marker.

The marker is located at the corner of the county line between Panola County and Walker County, Texas. It is a little-known boundary marker because it is not well-known to many people.

The marker was placed in 1924 by the Daughters of the Republic of Texas. The Daughters of the Republic of Texas is a national organization that promotes the history and heritage of Texas.

Library buzzed all day Monday

A first annual magazine giveaway at the Sealy High School's library set off the buzz of excitement Monday. Students were spread throughout the library, some reading novels, others taking care of business. The staff of the high school's magazine, "The Lion's Roar," hosted the event.

Students were able to receive a free copy of the magazine, which was printed on newsprint. The magazine contains articles written by students, as well as advertisements.

**Reader fondly recalls Mrs. Reed's famous stew**

Does anyone have recipe?

"Mrs. Reed's famous stew was a staple in our family. We would gather around the table to enjoy the rich, savory dish. Here is the recipe I remember:

- 2 lbs. stew beef
- 1 large onion, chopped
- 2 large carrots, sliced
- 2 large potatoes, cubed
- 1 large green pepper, chopped
- 2 cloves garlic, minced
- 1 teaspoon salt
- 1/2 teaspoon black pepper
- 1 bay leaf
- 1/2 teaspoon paprika
- 1/2 cup red wine
- 1/2 cup water

Brown beef in a large skillet, then add the vegetables and spices. Cover and let cook for about 1 hour. Add red wine and water, then let simmer for another 15 minutes. Serve with rice."

‘Teacher in Space’ grills students

By Tom Kirby

U.S. Congressman Jim Chapman had an unusual two months this past year. The congressman was not on vacation, and he didn’t have to deal with the usual chores of being a legislator. Instead, he was on a mission as part of the Space Shuttle Challenger program.

The mission was a success, and Chapman was able to conduct experiments in space, including the testing of new materials and the use of new technologies. He also had the opportunity to share his experiences with students across the country, as part of the ‘Teacher in Space’ program.

Rep. Chapman examines questions, area outlook

By Tom Kirby

U.S. Congressman Jim Chapman had an unusual two months this past year. The congressman was not on vacation, and he didn’t have to deal with the usual chores of being a legislator. Instead, he was on a mission as part of the Space Shuttle Challenger program.

The mission was a success, and Chapman was able to conduct experiments in space, including the testing of new materials and the use of new technologies. He also had the opportunity to share his experiences with students across the country, as part of the ‘Teacher in Space’ program.

The event was a big success, and Chapman was able to conduct experiments in space, including the testing of new materials and the use of new technologies. He also had the opportunity to share his experiences with students across the country, as part of the ‘Teacher in Space’ program.
