$5.7 billion tax bill to increase insurance

House amendment forces Clement's approval

S. 557, which contains the tax bill to increase insurance, was approved by the House Finance Committee on Tuesday. The bill was introduced by Rep. Don Clements, R-Dallas, and would increase the state's insurance premiums.

The bill would increase the state's insurance rates by 4 percent, which would result in an increase in insurance premiums for Texas residents. The increase would be retroactive to Jan. 1, 2016.

The bill was approved by a 2-1 vote, with Rep. Dennis Bonnen, R-Angleton, voting against.

"This bill is not about increasing taxes," said Rep. Daniel Bonfanti, R-Carrollton, who voted against the bill. "It is about ensuring that the state has the resources to provide the necessary services to our citizens."

Rep. Clements said the increase is necessary to help cover the costs of providing services to Texas residents.

"This bill will help ensure that our residents have access to the necessary services they need," said Rep. Clements. "It is important that we have the resources to provide these services for our residents."

The bill now goes to the Senate for consideration.

Charcoaling: Is it hazardous to your health?

By Dorothy Moll

And so we are on our way toward finding our way to a new era. The American Creamery of Peachtree Corners recently announced that it has found a way to produce cheese that is lower in fat and cholesterol. According to the company, the new product will be available in supermarkets next year.

However, scientists are still studying the effects of this new cheese on human health. Some researchers believe that the cheese may be beneficial, while others believe that it may have negative effects.
