They also chose the state's top two candidates, Governor James B. A. Jackson, 52, and Lieutenant Governor John B. Connally, 52, to lead Texas. The convention marked the end of the 1987-88 campaign season for the state's political leaders. Bush's re-election was seen as a sign of the party's readiness to challenge the Democrats, who have held the governorship for more than a decade.

One effective method is to educate children about the risks of drug use and to teach them how to resist peer pressure to use drugs. By raising awareness about the consequences of drug use, parents and educators can help children make informed decisions about drug use. It is important to remember that drug use can have serious long-term effects on a child's life, including health problems, academic difficulties, and social problems. By taking steps to prevent drug use, we can help ensure that our children grow up healthy and happy.
