Adams street to be widened
Carthage applies for TCDP grant

Carthage City dictionaries, one of the Texas Century Development Program's 1987 recipients, would be improved and repaired through the project. The city's downtown area, including Adams street, would be closed to vehicles for four days in the spring for repairs. A new park would be built on Adams street, facing the city's downtown square. The increase in traffic would be possible during the project. The project is expected to be completed by the fall.

Residents urged to shop here

Residents of the Carthage area are urged to shop at local stores to support their community. The city has a vibrant downtown area with many local businesses. Residents are encouraged to support these businesses and shop locally for all their needs.

County declared disaster area

The county has declared a disaster area due to recent severe weather conditions. Assistance is available for those affected by the disaster. Residents are encouraged to contact their local officials for more information.

Gary parolee held in local shooting

Gary, a parolee from the local jail, was arrested for armed robbery and possession of a firearm. The case is under investigation.

First Texas Thanksgiving held in 1541

In May 1541, the Comanche Indians invited 21 days in the Texas colony to celebrate the first Thanksgiving. The settlers, led by Governor de la Garza, gathered in San Antonio and held a service of thanksgiving. The settlers were grateful for the new land and the chance to start afresh. They built a new settlement and named it El Paso del Norte, which means "the fountain of the north." The colony was successful, and the settlers continued to celebrate Thanksgiving every year.

Subject: Carriage's Shop Carthage!

Dear John,

I was recently in Carthage and noticed the new shop, Carriage's Shop Carthage. It seems like a great place to browse for unique items. Have you had a chance to visit?

John H. Johnstone

PS: It sounds like a nameakes shop, perhaps I'm mistaken.

Happy Thanksgiving

Dear John,

I agree with your points in your recent article about car repairs. It can be frustrating to deal with auto mechanics, but there are steps that can be taken to prevent issues from arising. It's important to do your research and choose a reputable shop.

John H. Johnstone

PS: Thank you for bringing this topic to light.

The time has come to say goodbye to The Roundup, as I have been a steady writer on this team for almost two years. I am grateful to have had the opportunity to share my thoughts with you. I am leaving for the fall semester, where I will be attending a different school. However, I will be writing a column for the newspaper. I am excited to see what the future holds for me and for The Roundup. Thank you for your support.

By the Way

The library has a new book club. It will meet on the first Wednesday of every month at 5 p.m. The next meeting will be on September 7. The book club will be discussing "The Nightingale" by Kristin Hannah. It is a historical fiction novel about a French girl who becomes a resistance fighter during World War II.

We will see you soon.

OIL AND GAS NEWS

Panola Exploration of Beaumont, Texas, a subsidiary of Panola Energy Corporation, has announced that it has acquired additional acreage in the Big Sandy Field, located in Panola County, Texas. The acquisition provides the company with additional drilling and production opportunities in the area. The transaction was made possible by the company's strong financial position and its commitment to expanding its portfolio in the Permian Basin. The acquisition is expected to further enhance Panola's production and revenue streams, solidifying its position as a leading player in the regional energy market. The company plans to actively pursue further acquisitions and developments in the area, aiming to maximize the full potential of its assets. This strategic move reflects Panola's dedication to growth and its commitment to delivering value to its shareholders. The company's experienced management team is well-positioned to capitalize on the opportunities presented by this acquisition, ensuring continued success and growth for the business. Panola Exploration of Beaumont, Texas, continues to be a driving force in the regional energy sector, focused on delivering sustainable growth and value to its stakeholders.

Cockrell drives CHS attack  
'C' press breaker paces Dogs’ win

BY ED LEACH  
One of the key players for the Doggs in their 60-57 victory over Northwest was Chuck Cockrell. Cockrell scored 16 points, including a crucial three-pointer with less than 30 seconds left in the game, to help secure the win.

The Dogs led 30-23 at halftime and maintained their lead throughout the second half, but the Wolverines made a late push to make it close. Cockrell's three-pointer was the icing on the cake, as it put the Dogs up by five with just over 30 seconds left.

The Dogs have now won four of their last five games, and Cockrell's performance was a key factor in their success.

Eagles invited to NCAA playoffs  
Collins out for season at NTSU

DENVER — The Denver Nuggets have invited Collins to the NCAA playoffs, but the team’s season could be over by the first round.

Collins, a 6-foot-6 guard, has averaged 10 points and 5 rebounds per game this season. He has been a key contributor to Denver’s success, and his presence on the court will be missed.

Pups fall by 49-38

Despite a strong performance from Doggs forward Tony Mitchell, the Doggs were unable to hold off the Pups, who won 49-38.

Mitchell scored 20 points and grabbed 15 rebounds for the Doggs, but it wasn’t enough to overcome the Pups’ offensive dominance.

Pups’ B battered

The Pups’ B team was no match for the Pups’ A team, who won handily. The B team struggled to find their rhythm, with only 2 baskets in the first half and 12 in the second.

Pups tough

The Pups were tough to beat, as they were able to hold off a late charge from the Dogs to win the game 60-50.

The Dogs were able to keep the game close for the first half, but the Pups pulled away in the second half.

Collector has 106 old kerosene lamps

By Dorothy Nichols
Dorothy Nichols, 72, of Carthage, who resided in the same house her whole life, has been collecting kerosene lamps for over 20 years. She has 106 old kerosene lamps in her collection, ranging in style and size from ornate hand-painted lamps to simple oil cans.

The lamps are stored in her garage and she takes great care in preserving them. She has even attached them to a lamp stand, creating a unique display. Many of the lamps are beautifully painted and decorated with scenes of flowers and landscapes.

Dorothy says she enjoys collecting the lamps for the memories they bring back. She has seen many changes in the world over the years and the lamps serve as a reminder of simpler times. She plans to continue collecting and preserving them for future generations.

Showcasing these lamps at a local antique show, Dorothy says she hopes to share her passion with others. She is always on the lookout for more lamps and never turns down an offer.

"I love these lamps. They remind me of my childhood," Dorothy says. "I hope others will appreciate them as much as I do."

GOOD TASTE

In 1621, four women and two girls did it all

Could you serve 140 on Thanksgiving?

By Dorothy Marvin

Even if you're a good cook, take this hint: You should have a back-up plan. At Pharmaceutical's is 1961, four women and two girls, and a small number of children did it all. They served 140 people. It was a tradition that went on for years, and it was all done by hand. Today, we have machines and, of course, we have Thanksgiving. But the spirit of that tradition lives on. It's a reminder that, even in the era of instant gratification, there's still a place for the hard work and dedication of those who make our lives better.
