Birthday wishes

To The People of Paonia County

As a group of concerned citizens of the Paonia Community, we would like to take this time to express our feelings about the article in the East News, April 24, 1981, wherein the citizens of Paonia are mentioned. We feel that the article is an attempt to create a sense of medical need in the community. We believe that this is a false impression and that the community is capable of providing its own medical services.

We would like to point out that the citizens of Paonia have a long history of providing medical care for themselves and their families. The community has been able to sustain itself through the years, and we believe that it has the capability to continue to do so in the future.

We encourage all citizens of Paonia to become involved in the medical community and to work together to ensure that our medical needs are met.

Sincerely,

[Signatures of Concerned Citizens]
