Runoff votes recounted

Johnson is winner

By John Coleman, Post News Editor

A recount of the votes in the 12th district election between District Attorney James Johnson and his opponent, Tommy Ward, showed Johnson received 18 more votes in the runoff election than Ward. Johnson was still able to claim victory in the contest.

Ward and Johnson were driven into the runoff election when the March 8 primary election was held. In that contest, 89 percent of the total votes in the district were cast in the March 8 Democratic primary.

Ward was the top vote-getter in the district with 9,317 votes, Johnson trailed with 9,366 votes.

Bond investment is focus of campaign

By John Coleman

As votes were being counted in the Panola County Fresh Water Supply District's bond election, it was apparent that, with a lack of superintendents, one of the main reasons for the bond campaign, money would be needed to center around the $14 million investment of district bonds.

It can be said that the result of the campaign and the figures that have been developed reflect the importance of a bond to the district.

Johnson is winner

By John Coleman

In the runoff election for District Attorney James Johnson, the voters turned out for another election. Johnson, who was trailing Ward in the March 8 primary election, won the runoff election with 9,366 votes.

The runoff election was held on April 27, and the results were announced on April 28. Johnson won with a majority of the votes, which was 53 percent.

Local voters go to polls

By Shannon Gutierrez
Daily Writer
Panola County voters will be deciding on a number of issues thanks to the county-wide, non-partisan, all school board elections that will be held on Tuesday.

Several candidates are running for seats on the school board, including one slate of candidates who have pledged to support district bond elections and another slate that has vowed to oppose them. The candidates will be featured in an upcoming edition of the Panola County Post.

Area cities to hold elections

By Sandy Young

Local elections are on their way as May 3 is the deadline for candidates to file for the position of city council member in the following cities: Carthage, Palestine, and Navasota.

In Carthage, four seats are up for grabs, with two seats each being contested by the current council members. In Palestine, three seats are up for grabs, with two seats each being contested by the current council members. In Navasota, one seat is up for grabs, with the current council member running unopposed.

In Carthage, the city council will be voting to fill a position left vacant by the death of council member John Williams. In Palestine, the city council will be voting to fill two positions, one of which is being contested by the current council member. In Navasota, the city council will be voting to fill a position left vacant by the death of council member Mike Martinez.

In all three cities, the elections will be held on May 4.

PERSPECTIVES

Washington Watch

By Sen. Lloyd Bentsen

The two National Parties in Texas are running neck and neck in the polls, making the state a key battleground in the election. Both parties are mounting massive voter turnout campaigns, using every手段 to register and mobilize voters. The Democratic Party has a strong base of support among minority voters and young voters, while the Republican Party is focusing on appealing to white, suburban voters. The outcome of the Texas election could have implications for the national balance of power.

Editor’s Notebook

De-filed information

There are many reasons why de-identification is important in the age of big data. Some of the most common reasons include protecting personal privacy, preventing identity theft, and complying with regulations. De-identification techniques can range from simple methods like removing names and addresses to more complex methods like using statistical techniques to remove personal identifiers. The choice of method will depend on the specific needs and requirements of the situation.

De-identified information can be used for a wide range of purposes, such as conducting research, developing algorithms, and training machine learning models. However, it is important to be aware of the limitations of de-identified data, as it may not always be possible to completely remove all personal identifiers.

Texas has national forests

Check recipient must report to Social Security

For key McNeese, District Social Security Administration

Theft is a major problem for Social Security recipients. Some common tactics used by thieves include identity theft and fraud. One way to protect yourself is to keep your Social Security card in a safe and secure place. You should also be cautious when providing personal information to others. If you suspect that your Social Security card has been stolen, you should report it to the Social Security Administration as soon as possible.

Sixty-eight attend AARP

By Dr. D. Wood

Panola County Chapter 1976 of the American Association of Retired Persons (AARP) held its 19th annual meeting on May 9 at the Panola County Community Center in Carthage. The meeting began with a reception in the auditorium, followed by a luncheon in the Council Chamber. Dr. D. Wood gave the keynote address, emphasizing the importance of community involvement in the lives of older Americans. The meeting concluded with a distribution of awards to members who have served the chapter well.

Industrial Arts winner

Carthage Junior High School was recently awarded the title of Industrial Arts winner for the most innovative project in the Region. Students working on the project designed and built a unique device that could be used for various practical applications. The project was a collaboration between students and their teachers, who provided guidance and support.

Correction

De-identified information is not the same as de-identified data, as the latter term refers to data that has been altered in a way that makes it impossible to identify individuals. De-identification is a process of removing or altering personal identifiers from data, such as names, addresses, and social security numbers.

Immunizations set for Monday

The Texas Department of Health is holding an immunization clinic at the Panola County Post Office on Monday, May 9th. The clinic will offer free vaccinations for children, including those who are uninsured or underinsured.

Board members hold meeting

Monday, May 9

Board members of the Carthage Junior High School Chapter of the American Legion held their regular meeting on Monday, May 9th. The meeting was held at the American Legion Post in Carthage. The board discussed various issues, including the recent achievement of the chapter as Regional winner for the Industrial Arts category.

Known Your Heritage
BY LESLIE L. LAGOS

For us all, heritage of the American Indian is a significant part of our identity. It shapes who we are and how we see ourselves in the world around us. The celebration of American Indian Heritage Month in November serves as a reminder of the rich history and contributions of Native American peoples.

Church functions have a long history of being integral to the spiritual lives of people. In many religions, they serve as a means for individuals to connect with their faith and community. Church functions can take many forms, from regular worship services to special events celebrating milestones or traditions.

Church functions can be meaningful experiences for many people, offering a sense of community, guidance, and support. They can help individuals navigate through life's challenges and provide a sense of purpose and meaning in their lives. Whether in person or online, church functions offer a space for spiritual reflection and connection with others.

Services, socials keep sorority busy

Late winter and early spring bring busy times for the Delta Sigma Theta Sorority, Inc. campus chapter in Fort Worth, where a variety of events and activities keep the members engaged in service, social interaction, and personal growth.

The events, which are designed to foster community involvement and cultural awareness, range from cultural workshops and service projects to social gatherings and educational initiatives. By participating in these events, the members of Delta Sigma Theta Sorority, Inc. are able to build strong relationships, develop leadership skills, and make a positive impact on the community.

The sorority has a strong emphasis on community service, and its members actively participate in various service projects throughout the year. These projects are designed to address the needs of the community and to help individuals in need, whether it's through volunteering at local schools or providing relief for those impacted by natural disasters.

In addition to service projects, the sorority also offers opportunities for social interaction and personal growth. The members participate in social events to strengthen their bonds and create a sense of community, while also enjoying the company of friends and family.

The Delta Sigma Theta Sorority, Inc. in Fort Worth is a dynamic and active chapter that is committed to making a difference in the world. Through its service projects, social events, and educational initiatives, the sorority is able to foster a sense of community and personal growth among its members, while also making a positive impact on the community as a whole.

Tatum Yearbook is finished

The award of $2,000 was given to Tatum High School yearbook staff recently at state competition held in Austin for the 1997-98 edition. This competition was sponsored by the Texas High School journalism Association, and was judged by professional journalists and editors from around the state.

The 1997-98 Tatum yearbook was designed by students under the direction of Mr. Rick Mitchell and Mrs. Carolyn Light. The yearbook met all standards of the competition and was judged the second best of the entire state of Texas. The second place finish allows the Tatum yearbook to continue competing against the best yearbooks in the state for years to come.

Attention

All Beef Producers: May 10th Determines Your Future

In this year’s election, the last thing you need is someone else talking to you about politics or your responsibility to other beef producers. It’s a busy time of the year, and you’ve got your mind on your operation, not on going to town.

But, on Tuesday, May 10th, if you don’t stop for a few minutes, go to your county extension office and vote, you’ll miss the referendum that decides the fate of the Beef Checkoff Program.

Just a couple of years ago, our industry was being beaten up, and we were bucking up—taking it. But we got our backs up and did something. We drew a line in the sand. We began to fight back. And you know what...it’s working.

Many people are eating beef more often, and the newspaper headlines read that beef is coming back. Now, we’re not telling you how to vote. That’s your business. But, on Tuesday May 10th, the National Beef Checkoff Program is going to continue or it’s going to stop dead in its tracks. It’s totally up to you. So take a trip to your County Extension Office and vote. You’ll be glad you did.

Vote May 10th

Beef Checkoff Referendum at your County Extension Office

From second row, from left, the Walker, Lea Lee, Alice Davis, Elizabeth Hancock, Dulcie Walker, Justice Cain, Louise Shoff, Harris Smith and Barbara Luper.

Wants 'smoke-free society' by 2000

Cancer Society aims campaign at children

With the goal of a smoke-free society by the year 2000, Betty Wheat, program chairman for the Panola County Cancer Society, said the group is distributing Smoking Prevention Packages to area school districts for use in preschool and junior gardens classes.

"Starting Free-Good Air For Me" is the theme of the program designed to help children decide not to smoke later. The program uses behavioral actions that teach children to recognize the impact of smoking on their bodies and to let them know that they can "smoke their heads off" whenever they want to. They will also be taught how to talk to others about smoking, to tell an adult that someone is smoking and to tell a smoker or other adult how smoke makes them feel.

Wheat said the main impact of the program is to help children develop a change of attitude toward smoking and to let them know that it's OK not to smoke.

A recent study of the United States Surgeon General shows that children who live with parents who smoke are far more likely to develop respiratory disease. As they cough, their linings and more frequently encounter cancer-related practices.

According to the Cancer Society, the effects of "voluntary smoking" can be long-lasting because children who grow up with smokers are far more likely to become smokers themselves. Young children can't stop their parents and other adults especially people they care about. For this reason, this program is being directed at young children to help them change the society's behavior.

The program includes handouts, coloring pages, story books, posters and stickers designed to help young children form attitudes about smoking now, while they are young and impressionable. Emphasis will be placed on the message that smoking is not a social issue and that it is not a healthy practice.

The kit also includes samples of home activity sheets which can help parents play together with their children in ways that reinforce the messages learned at school.

Motherhood is a word that defines definition. It is tenderness and affection and it is dignity and forbearance and faith and dedication. It is tact and charity and perseverance in patience. It is kindness combined with fairness, constancy in the face of fickleness, forgiveness in the presence of ingratitude. It bears all things, believes all things, hopes all things, endures all things. The woman who has all these graces should be honored on her day. And most mothers do have them, you know.

Wheat said packages were being distributed in Carthage, Beulaville and Paris schools.
